Headquarters, Farm No. 1

No outstanding success in the world of Business, Finance, Politics or Social Betterment is possible without zealous loyalty to some basic idea or ideal. In the case of Little-Tree Farms, the ideal and vital aim that permeates and animates this organization, from top to bottom, is so simple that it may be expressed in a single phrase—

To render to its clients a *Complete Horticultural Service*.

The implications of such an ideal are far-reaching, for the word “complete” means nothing less and admits no “buts,” “ifs” or “however.” It means that no matter how simple or complicated your needs—whether for a single plant to decorate a sunny window, ten thousand to transform a barren waste of land, a remedy for some garden problem or suitable tools, fertilizers, and instructions for proper care—Little-Tree Service is at your command. Whether you want a word of advice in laying out a flower bed, or the elaborate plans, specifications and estimates necessary for the complete landscaping of a great estate, Little-Tree Service is especially equipped to help you.

To render this Service, promptly, economically and satisfactorily, there is a well-knit organization of executives and trained, competent craftsmen—Landscape Architects, Engineers, Botanists, skilled Gardeners and Propagators—enthusiasts as well as practical men of affairs.

Behind these men lie ample resources of capital and credit and the great plant consisting of hundreds of broad acres under intensive cultivation, with the elaborate system of buildings and machine equipment, which are the physical aspects of Little-Tree Farms.

This, in brief, is the Little-Tree Idea.

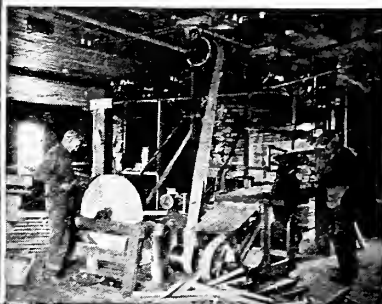

Exhibition and sales

Interior of Sales Building

The book you hold in your hands represents one phase of that idea. It is Section II of the New Year Book—a comprehensive Catalog and Price List for 1929 of worth-while varieties of ornamental plants suited to the climate of the northeastern United States, as well as a carefully chosen selection of Garden Furniture, Tools, Sprays, and other Garden Accessories which are always on display in the big glass enclosed Exhibition and Sales Building at Little-Tree Farms No. 2.

All the material listed here is carried in stock and may be obtained promptly on order. *Any material not here listed, which you may desire*, we will procure for you, if possible. In the back of this book an index and order sheet are placed for your convenience.

The New Friendship Offers and Little-Tree Specialties for 1929 on the four following pages merit your especial attention. Designed primarily to increase our circle of customers, they are very exceptional values, for all our friends, new and old.

Little-Tree Group Offers for 1929 are better than ever before and include a wide choice of plants for both utilitarian and ornamental planting—all at astonishingly low prices.

Finally if you are interested in any form of landscape beauty don't overlook the brief introduction, on the back of the cover, to "The Landscape Art," a new book of great informative value issued by Little-Tree Landscaping and Forestry Service.

Little-Tree "Friendship Offers" for 1929

Offer S-1
"The Big 4"

4 Wonderful Evergreens
A Magnificent Value at \$18.75

Regular Price \$23.50

Here, we believe, is the best evergreen value in the country. Notice the shapely full foliated tops as full of vim and vigor as a Kentucky Thoroughbred. Each plant has been transplanted three times into fresh soil, root pruned and carefully cultivated for years to foster its inbred vitality to a maximum.

All four varieties are extremely hardy and will make a handsome display in almost any environment. Suitable for any lawn, border, foundation planting, or for accents in the flower garden. Full planting directions accompany each order.

1 American Arborvitae	5 to 6 feet
1 Douglas Fir	4 to 5 feet
1 White Spruce	3 to 4 feet
1 Canada Hemlock	2 to 3 feet

Order by name and number with remittance.

Order by name and number with remittance.

Offer S-10 55 "Baby Evergreens"

(\$22.75 value)

Special at \$17.50

Fifty-five sturdy little evergreens. 5 each of eleven desirable varieties, 6 to 18 inches tall, all as perky and full of ginger as a basket full of wire-haired puppies. Each has been transplanted once or twice and has good roots. For description of grades see page 20. Plant them a foot apart in garden rows in the vegetable garden or a corner of the back yard, cultivate them regularly, and in a few years reap a crop of valuable ornamental plants for decorating your grounds. The varieties selected are all hardy and beautiful and afford considerable contrast in shape, color, foliage and habit of growth.

5 Balsam Firs	once transplanted	6 to 8 inches	\$1.25
5 White Firs	twice transplanted	8 to 12 inches	3.00
5 Douglas Firs	once transplanted	12 to 18 inches	2.00

5 American Arborvitae	twice transplanted	8 to 12 inches	1.75
5 Canada Hemlocks	once transplanted	8 to 12 inches	2.00

Our prices include packing and are f. o. b. Framingham

Little-Tree Novelties and Specialties for 1929

The Chinese Elm (*Ulmus pumila*)

*A Remarkable New Tree
Beautiful—Rapid Growing—Hardy*

Typical Chinese Elm, 4 years old

INTRODUCED from China in 1908, where for centuries it has withstood the most adverse conditions of soil and climate, the Chinese, Siberian or Asiatic Elm has for twenty years been thoroughly tested in all parts of this country. Extremely adaptable, it justifies the claim of the U. S. Department of Agriculture, "It is very hardy and has proved valuable under a greater variety of climatic and soil conditions than any tree yet introduced."

Its exceptional rapidity of growth provides luxurious shade in a few years. Note the four-year-old tree pictured, shapely and vigorous, already 20 feet tall, with a spread of 18 feet.

The natural form, tall and stately, adapts this tree to lawn and street planting. It excels also for a quick screen or windbreak because of its low branching and its vigor under trying conditions.

Remarkably free from plant diseases and insect injuries.

4 to 5 foot trees, \$1.50 each; \$12.50 for 10

Hugonis Rose (*Rosa hugonis*)

FROM a small mission outpost in the semi-arid mountains of central China came the seed of Father Hugh's Rose, the golden rose of China.

Rare indeed is the exquisite soft golden color of its blossoms; rare, too, are the gracefully arching branches which form a fine rounded bush four to six feet tall. So freely are the flowers borne that the leaves are completely hidden. It is the earliest of all roses to bloom, flowering in May—a gorgeous sight in the spring border.

Ideally suited to our hot, dry summers and cold winters, which are similar to those of its native land, this rose is perfectly at home in our gardens and requires little care.

Hardy and Beautiful—the Favorite "Wild" Rose of Today
2 year plants, \$1.50 each

Betchel Crab (*Malus ioensis plena*)

ONE of the most charming of all flowering trees for the small lawn or garden. The large, double, rose-like flowers, two inches across, are softly tinted with pink and have the delicate fragrance of violets. A tree in full bloom, with the great clusters of blossoms freely borne on wide spreading branches, is a wonderful sight.

This tree, a native of our northwestern states, is well adapted to our soils and climates and is easily grown in the average garden. In maturity it is about 20 feet tall with a fine spreading crown. Plant one by your window and enjoy its delicious fragrance, or plant across the lawn where its mass of bloom may cheer you in late spring.

4 to 5 feet tall, \$2.50 each; \$22.50 for 10

3 to 4 feet tall, 2.00 each; 17.50 for 10

Our prices include packing and are f. o. b. Framingham.

To Add Interest and Distinction to Your Home

Flowering Almond

(*Prunus glabra albiplena*)

An Old-time Favorite from
Colonial Gardens

SENTIMENT and romance will ever be associated with this lovable little shrub, for it has been cherished and tended by many generations of gardeners. Graceful in habit and daintily foliaged, its chief glory comes in early spring. Before the leaves appear, tiny double pink blossoms unfold, dotting the slender branches like garlands of little roses.

2 to 3 feet \$1.00 each; \$9.00 for 10

18 to 24 inches .75 each; 6.00 for 10

American Bittersweet

(*Celastrus scandens*)

A HANDSOME vine with glossy leaves and autumn fruits of brilliant orange. Excellent for trellis, fence, porch and pergola.

Strong 5-year plants, \$1.00 each; \$7.50 for 10; \$60.00 for 100

Mexican Yucca

(*Yucca filamentosa*)

AN evergreen of great decorative value, Yucca or Adam's Needle is perfectly at home in our northern gardens. There is great beauty all through the year in its tall, narrow, evergreen leaves. It forms a pretty edge for the evergreen or flower border or an accent by path or entrance.

In midsummer, tall stalks, 4 to 6 feet high, bear a profusion of pure white, nodding bell-shaped flowers. These are exceedingly striking, especially on moonlit nights, when for fragrance and glistening white bloom they cannot be surpassed.

Two-year plants, \$.75 each; \$6.00 for 10

New England Aster

(*Aster novae-angliae*)

THE glory of New England waysides from August into October are the royal-purple, starry blossoms of this wonderful aster. It excels in richness of fall coloring and in size most of the newer hybrid Asters. A marvelous background for the perennial border, a brilliant mass among shrubbery, and superb against an old stone wall. Easily naturalized in bold masses at the edge of lawn or woods.

\$.30 each; \$2.00 for 10; \$15.00 for 100

Winged Euonymus

(*Euonymus alata*)

FROM flower-loving Japan came the Cork Tree or Burning Bush. This tall, flat-topped, inconspicuous bush, is in autumn transformed with brilliant fiery scarlet and crimson foliage. It paints the rich autumn landscapes of Japan far and wide. Its picturesque winter silhouette of cork-winged twigs and slender drooping red fruits (see illustration) suggest the odd decorative quality peculiar to old Japanese paintings.

Bank this shrub against your evergreens, plant a specimen in the shrub border or at a taller corner of the house for rich fall and winter effect.

3 to 4 feet \$1.50 each; \$12.50 for 10
2 to 3 feet 1.25 each; 10.00 for 10

Cardinal Flower

(*Lobelia cardinalis*)

AN extremely lovely wild flower crowned by a stately torch of glowing crimson blossoms in July and August. Much prized and

\$.35 each

\$2.50 for 10

\$18.00 for 100

now seldom found wild. Thrives in any rich garden soil and deserves a special welcome in your midsummer garden.

Cypress Spurge

(*Euphorbia cyparissias*)

ALMOST like miniature evergreens are the compact, formal clumps of this low perennial. The narrow, gray green leaves grow

\$.35 each

\$2.50 for 10

about 6 to 8 inches tall and in fall turn wonderful shades of pink and orange. A splendid plant for edging and for rock gardens.

\$18.00 for 100

Our prices include packing and are f. o. b. Framingham.

Decorate Your Doorway with These Charming Collections

ON this page we offer three carefully considered combinations for planting at the side of the doorway. They are intended for moderate sized homes and may be adapted to many different styles of architecture.

The illustrations show the plants at the doorways of small Colonial houses, but they are just as suitable for houses of other types. It is a simple matter to arrange the plants in various positions around your own doorway until you get just the effect you want.

These groups will beautify your home whatever the season and always radiate a cheerful welcome. Each group will prove a splendid investment, growing increasingly valuable each year and adding charm to your property.

ON the two following pages we have amplified the doorway group and show more extensive groups for planting along the house front ("foundation plantings" they are often termed). Their mission is to soften the harsh lines created where the house rises abruptly from the soil and thus harmonize the architecture of the house with the lawn and the rest of the home environment. This subject can be treated in various ways to suit the style of your house or the condition of your pocketbook.

Most of these offers are arranged on the *sectional plan*. Each combination consists of a doorway, center and corner group, any one of which may be combined with similar groups from other offers. This plan permits the widest latitude of selection without sacrificing the price reduction gained in these offers. Taking advantage of these group offers saves you from 10 to 20%.

INSTRUCTIONS for the care and planting of evergreens will be found on the order sheet in the back of this book.

All plants in the offers illustrated on this page are bushy topped *three times transplanted quality (see page 20 for explanation of terms) and are dug with big balls of roots in native loam.

American Arborvitae
White Spruce White Spruce
Ground Juniper Blue Spruce Ground Juniper

Six Splendid Evergreens

Offer S-13 \$25.00

Order by name and number with remittance.

This illustration shows Offer S-26 arranged in front of a white Colonial home. The same plants may be arranged in many other ways to suit different types of architecture.

THE group of eighteen magnificent evergreens in 10 varieties, illustrated above, constitutes a remarkable value. All plants are first quality *B & B stock. The varieties chosen give ample contrast in size, shape, color and foliage texture but blend in a harmonious group.

Flowering broad-leaved evergreens are lovely with the conifers, and in season their beautiful bright flowers are an additional attraction.

Though illustrated around a house of Colonial design this group is suitable for practically any type of architecture.

Just stand the plants around your house until you get the exact effect desired. There are sufficient plants for a 30 to 40 foot house front.

A Complete Planting for a Offer S-26 Small Home \$73.50

Regular Price \$83.00

Eighteen finest quality evergreens—sufficient for decorating the entire front of a moderate size home.

1 Colorado Spruce	2 to 3 feet
2 Canada Hemlocks	18 to 24 inches
2 Mountain Laurels	18 to 24 inches
2 Carolina Rhododendrons	12 to 18 inches
2 Mountain Andromedas	12 to 18 inches
2 Globe Arborvitae	12 to 18 inches

Order by name and number with remittance.

Our prices include packing and are f. o. b. Framingham.

WHEN planting evergreens around the house be very sure that no lime or plaster is present. Rubbish of this kind, sometimes used as filling by careless contractors, is detrimental to evergreens.

If the soil is extremely poor and hard, cover it with 6 to 8 inches of granulated peat moss and spade this in thoroughly, turning the earth over to a depth of at least 18 inches. On better soils use less peat moss but even in good soils 2 inches of the moss worked into the soil will be very beneficial. Peat moss is described on page 42

Information in regard to planting evergreens and other plants may be found on order sheet in back of book.

Doorway Group

Offer S-27

\$21.50

Regular Price \$24.50

Six magnificent evergreens—an ensemble of beauty—offering harmonious contrast in color texture, size and shape. Change the arrangement and these plants may be used to decorate any part of house foundation or lawn.

1 American Arborvitae	4 to 5 feet
1 White Spruce	3 to 4 feet
1 Irish Juniper	2 to 3 feet
1 Rosebay Rhododendron	18 to 24 inches
1 Parsons Arborvitae	18 to 24 inches

around an open porch they will give desirable seclusion and relief from noonday glare. A graceful group for interest at all seasons.

- | | |
|------------------------|-------------|
| 6 Weeping Forsythias | 4 to 5 feet |
| 4 Garland Spireas | 2 to 3 feet |
| 16 Japanese Barberries | 2 to 3 feet |

All first-grade plants.

Order by name and number with remittance.
Our prices include packing and are f. o. b. Framingham.

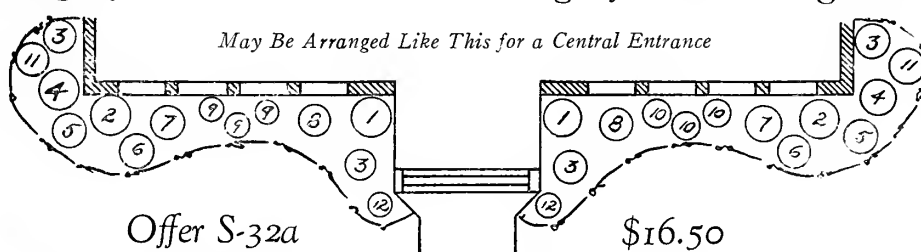

THE evergreens are especially appealing in winter. Spruce, Cedar and Hemlock make upright accents at house corners or beside doorways, while the low Wintercreeper fills the foreground. These make a fine foil for gay flowers or bright fall fruits of the shrubs. Enjoy this planting. It will return large dividends in satisfaction and make your property more valuable.

A Delightful Foundation Planting of Flowering Shrubs

Thunberg Spirea—Fluffy white flowers in May.

(At left)

May Be Arranged Like This for a Central Entrance

Offer S-32a

\$16.50

Hydrangea—White flowers of summer turn red and purple in fall.

(At right)

Pink Weigela—Pale and deep pink blossoms in June.

(At right)

Mockorange—White blossoms in May and June.

(At left)

28 Glorious Flowering Shrubs—12 choice varieties—all of Little-Tree fine quality—which afford a succession of bloom from spring to fall. This combination may also be used as a border at

the property line or side of the garden. The two plans illustrate pleasing arrangements of these plants for usual types of houses. They may be arranged in other ways to fit houses of any shape.

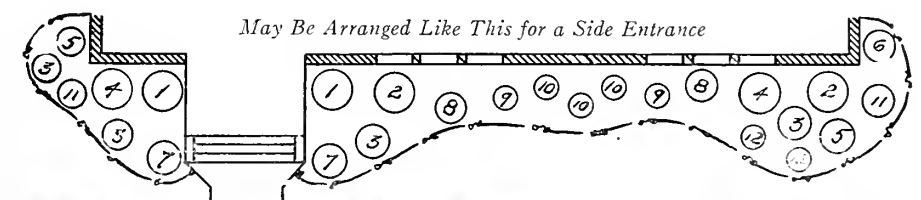

Key	No.	Name	Size
1	2	Mockorange	3 to 4 feet
2	2	Honeysuckle	3 to 4 feet
3	4	Vanhoutte Spirea	2 to 3 feet
4	2	Forsythia	3 to 4 feet
5	2	Japanese Quince	18 to 24 inches
6	2	Thunberg Spirea	18 to 24 inches

Key	No.	Name	Size
7	2	Peegee Hydrangea	2 to 3 feet
8	2	Fuzzy Deutzia	3 to 4 feet
9	3	Kerria	18 to 24 inches

(At right)

Honeysuckle—Pink or white flowers in June. Pretty red fruits.

(At left)

Butterflybush—Fragrant, purple flowers in summer.

(At left)

Coralberry—Small pale pink flowers in spring. Red berries.

(At left)

Deciduous Hedges

Here Barberry is used for an informal effect.

Scarlet berries of Barberry grow in thick clusters.

California Privet trimmed to give formal effect.

Big roots—good tops.

JAPANESE BARBERRY

Attractive yellow flowers in the spring. Foliage turns a beautiful red and crimson in the fall. Brilliant scarlet berries hang on the bush all winter. Plant one foot apart. Makes

a dense, almost impenetrable, prickly hedge. May be sheared to formal shape or allowed to grow naturally.

Height	10	100
18 to 24 inches	\$3.50	\$25.00
12 to 18 inches	2.50	20.00

CALIFORNIA PRIVET

Perhaps the best known, most planted hedge plant. Inexpensive, but handsome. This privet stands shearing splendidly and it is very popular for formal effects. The foliage, borne on

erect branches, is a delightful green, of fresh color, and very glossy. Will grow in partial shade near big trees. Plant 8 inches apart.

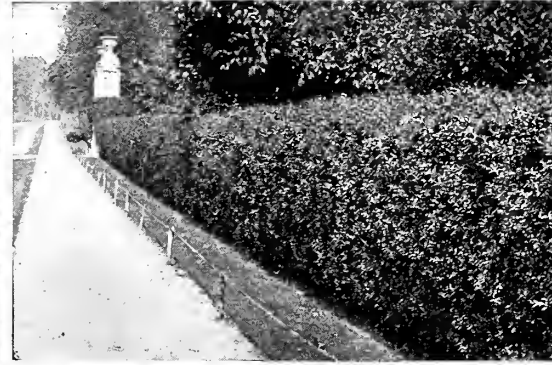

Height	10	100
3 to 4 feet	\$3.00	\$20.00
2 to 3 feet	1.80	10.00

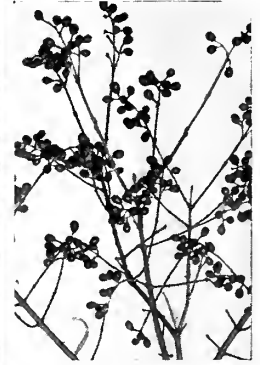

There's charming informality in a Rugosa Rose Hedge.

Handsome red fruits.

Iboia Privet closely sheared for a tall hedge.

Rich black berries.

RUGOSA ROSE

Makes one of the loveliest informal hedges. Excellent for massing on seashore properties, where it thrives on sandy soil, sunshine, and winds. Thick, clean foliage. Prickly stems

leaves glossy, tough and prettily veined. Flowers are single red or white. Large red-orange fruits, of great decorative value. Plant 18 inches apart.

Height	10	100
18 to 24 inches	\$6.50	\$60.00

IBOTA PRIVET

Exceptionally desirable for both high and low hedges. Vigorous and absolutely hardy even in severely cold climates. Shears well. Many fragrant white flowers in spring. Clusters

of dark blue berries in fall. One of the best hedge plants. Plant one foot apart.

Height	10	100
3 to 4 feet	\$4.00	\$30.00
2 to 3 feet	3.00	20.00
18 to 24 inches	2.00	15.00

Aralia is well adapted to difficult city conditions.

Big bushy plants.

Masses of gleaming snowy blossoms appear in June.

Spirea blossoms.

ARALIA

An excellent hedge, particularly well adapted to shady spots. Very graceful, erect, arching branches and remarkably handsome, shining green foliage. Somewhat prickly and fine for protec-

tive hedges. Improved by close shearing. Thrives unusually well under city conditions and in ordinary soil. Plant 18 inches apart.

Height	10	100
2 to 3 feet	\$5.00	\$40.00

VANHOUTTE SPIREA

This charming and well-loved shrub of medium height, often called "Bridal Wreath," has beautiful, arching branches, fine foliage and in June flat clusters of white flowers on slender

branches. It makes an exceptionally fine hedge. Very showy and handsome. One of the best shrubs for flowering in the shade and in poor soil. Plant 3 feet apart.

Height	10	100
2 to 3 feet	\$4.00	\$30.00

PEEGEE HYDRANGEA

Very popular for informal hedges. The larger white flowers appear in late summer and change to red and purple in fall and are very striking. Allow plenty of space for growth and cut back old wood each year for heavy flowering. Plant 30 inches or more apart.

Height	10	100
2 to 3 feet	\$7.50	\$70.00

BUCKTHORN

The semi-thorny branches adapt this shrub for use in protective hedges or thickets. Clusters of white flowers are followed by black berries extremely hardy and decorative. Good in shady places. Plant 30 inches apart.

Height	10	100
4 to 5 feet	\$5.00	\$45.00
3 to 4 feet	4.00	35.00

Our prices include packing and are f. o. b. Framingham.

Evergreen Hedges

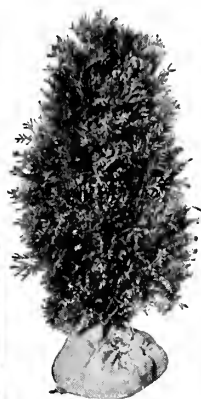

A formal hedge of sheared *Arborvitae*.

ARBORVITAE

ONE of the most popular evergreens for hedges. The dense, soft, feathery foliage shears well where formal effects are desired. Used for tall or low hedges. Plant 1 to 3 feet apart, depending on size.

*THREE TIMES TRANSPLANTED B & B			
Height	10	100	
3 to 4 feet	\$35.00	\$300.00	
2 to 3 feet	25.00	200.00	
*TWICE TRANSPLANTED			
Height	10	100	
18 to 24 inches	\$7.50	\$60.00	
12 to 18 inches	4.50	35.00	

Arborvitae.

Low trimmed *Norway Spruce* protects this property.

NORWAY SPRUCE

THIS fast-growing hedge evergreen has dense and graceful dark green foliage. Used extensively for both formal and informal hedges. Plant 1 to 3 feet apart.

*THREE TIMES TRANSPLANTED B & B			
Height	10	100	
18 to 24 inches	\$15.00	\$125.00	
12 to 18 inches	11.00	90.00	
*TWICE TRANSPLANTED			
Height	10	100	
18 to 24 inches	\$5.00	\$35.00	
12 to 18 inches	4.00	25.00	

Norway Spruce.

A *Douglas Fir* hedge at Little-Tree Farms.

DOUGLAS FIR

THIS wonderful soft foliaged evergreen shears well and makes a very pleasing hedge for lawn or garden. Leave unsheared for a tall, naturalistic hedge. Plant 2 to 3 feet apart.

*THREE TIMES TRANSPLANTED B & B			
Height	10	100	
4 to 5 feet	\$70.00	\$650.00	
3 to 4 feet	45.00	400.00

Our prices include packing and are f. o. b. Framingham.

*For explanation of grades see page 20.

THIS beautiful, compact evergreen with its dense, feathery bright green foliage makes an unusual and distinctive hedge. Attractive as an informal hedge or may be sheared for formal effect. Plant about 2 feet apart.

Height	Grade	10	100
2 to 3 feet	*3 times transplanted B&B	\$50.00	\$450.00
18 to 24 inches	3 times transplanted B&B	35.00	300.00

PLUME CYPRESS

A neat edging of low perennials enriches the taller flowering varieties.

Rich flower masses are obtained by grouping these perennials—a low bed in the center, taller groups at the sides.

Midsummer finds this garden tidy with phlox in bloom.

Perennials for the Garden

ABUNDANT color from early spring until frost is the joy of a Perennial Garden. These lists will guide you in grouping plants for best effect. Perennials for the background all grow 4 to 8 feet tall and should be planted 2½ to 3 feet apart. Plant those for the middleground 1½ to 2 feet apart and "face down" with low-growing varieties.

Perennials suggested for the foreground have clean, attractive foliage throughout the season as well as flowers. They grow 6 to 12 inches tall and should be planted the same distance apart.

The shallow rooting ground covers are pretty for broad edgings or protective top coverings for tulips, lilies or roses.

For complete description of these and other varieties see pages 36 to 38.

FOR THE BACKGROUND

Name	Color	Each	10
Aconitum autumnale	Monkshood	Blue	\$.55 \$4.50
Althaea rosea	Hollyhock	Assorted	.30 2.50

Our prices include packing and are f. o. b. Framingham.

Suggestions for Rock Gardens

The beginning of a rock garden. Stones and city water are added to a natural setting.

Rock work is a pleasing and effective treatment for sloping ground.

Rock plants at home under a big Elm in the gardens at Little-Tree Farms.

THE spirit of the rockery is essentially natural. Avoid any appearance of artificiality. Large weathered stones of irregular shape and size should be placed to allow a generous pocket of good soil for each plant, with proper drainage and connection with the subsoil to prevent drying out. Careful placing of the stones is essential.

WHEREVER there is a steep slope, or change of level in garden or path, there is an opportunity for rock gardening. Wherever a rocky ledge crops out on the surface and the surrounding soil is too shallow for shrubbery or grass, there also rock work forms a fitting treatment. Many an eyesore, an old dump, rubbish heap or rock pile is easily transformed into a spot of great beauty. Even poorly drained, shady corners on the north side of buildings make good rockeries.

The illustrations show how natural elevations are made attractive by the use of rocks, suitable plants, and water. Call upon our Landscape Department for help in the technical work of building your rockery.

MOST rock plants thrive in any sunny, well-drained soil. Many varieties such as the Sedums, Dianthus, and Cerastiums grow in hot, dry, sandy soil; others such as the evergreen shrubs and Primulas are better suited to more moist or partly shaded conditions and soil rich in humus. Plants listed are all of easy culture.

EVERGREENS FOR RICH BACKGROUND

Low-growing varieties:

Name	Size	Each
Pfitzer Juniper	12 to 18 in.	\$3.50
Ground Juniper	12 to 18 in.	2.75

*Will thrive in shade as well as in sun.
For descriptions and quantity prices see pages 36 to 38.
See special offers on pages 12, 13 and 18.

Easy steps to a different grade are made more interesting by informal planting.

A gay, sunny border over this bare rocky ledge is the delight of early spring.

The Back Yard Garden—A Quiet Retreat

A city garden where wall and lattice, fountain, evergreens and vines make a charming picture throughout the year.

In a small suburban back yard, skillful planting shuts out neighboring buildings and provides a cool spot for a tea house.

For City Conditions

Poor soil, shade, smoke and gases make the city garden a difficult problem. A wide selection of plants goes far toward solving it. Where even grass fails decorative paving may be used and plants in decorative pots added with good affect.

This list of the best shrubs and evergreens for city conditions is highly recommended by our Landscape Department.

Dwarf Mountain Pine; White, Blue, Colorado Spruces; Japanese Yew, Mountain Laurel, Rosebay and Catawba Rhododendron, Japanese Pachysandra, Yucca, Periwinkle, Wintercreeper, Aralia, Azalea, Barberry, Winterberry, Privets, Van Houtte Spirea.

For descriptions and prices see pages 24 to 26.

IT is easy to transform an ordinary back yard into a pleasant and livable outdoor room and at the same time greatly increase the beauty and interest of the outlook from the house windows. Good design is all-important. The background of tree and shrub, wall or fence, should be correctly proportioned to the limited space available and still serve its purpose of giving complete seclusion.

Frequently garden furniture and ornaments or special features, such as a vine-covered seat, a simple pool or fountain, a paved walk or terrace, will make the picture more interesting.

For refreshing ideas and constructive advice suited to your special problem, consult our Landscape Service. We are equipped also to handle the technical work of construction of pool and pergola, walk and terrace

Garden Ornaments

Wall Fountains, Sundials, Gazing Globes, Bird Baths, Decorative Jars, Terra Cotta Pots and Vases.

For description, illustrations and prices, see pages 43 to 47.

Garden Furniture

Stone and Terra Cotta Benches, Trellises, Gates and Arches, Lattices and Pergolas, Woven Wood Fences.

For a Small Back Yard

Fifty or seventy-five square feet surrounded by house and garage drive, neighboring buildings or a vacant lot, this is the bare setting for the usual small home garden. Here lie possibilities for framing this and screening that until a charming garden picture has been created within the narrow bounds.

In arranging the background border, use ornamental trees among the tall shrubs for their interesting flowers or fruits as well as for afternoon shadows across the lawn. The list following includes the best ornamental trees and shrubs for enclosing the small garden.

Spruces, Cedars, Arborvitae, Betchel Crab, Mountain-Ash, Paul's Scarlet Thorn, Flowering Dogwood, Lilacs, Mockorange, Deutzias.

For descriptions and prices see pages 23 to 35.

Rose Gardens

For more than two thousand years, roses have been cherished, praised in song and story, and loved alike by rich and poor. For exquisite fragrance, delicacy of texture and coloring, form and lasting quality as a cut flower, the Rose is unexcelled.

This flower is common to all nations and to all gardens—a remarkable tribute to its universal popularity. No other flower has so completely stirred human emotion or so responded to the loving care bestowed upon it.

Few realize that our modern rose is a triumph of horticultural skill, a very recent product of the plant breeders of five nations. During the last fifty years, from the wild species of Europe and Asia, has been born a new race of

Hybrid Tea and Perpetual Roses, surpassing all others in richness of coloring, size and continuity of bloom.

The wealth of this new material is truly astonishing. There are almost 2000 varieties in commerce today, while at least 150 more are introduced each year.

New and better varieties are thus rapidly supplanting the old. Gardens planted thirty years ago are often out of date and lacking the glorious newer roses. Our selection includes new roses, thoroughly tested in all parts of the country and given a high rating by the American Rose Society, as well as the best of the older varieties. For our list of best varieties, refer to page 40.

Planting of Roses

Plenty of sunlight, good drainage and rich soil are the major considerations in making a rose garden. Without these, even the best plants will not thrive.

Roses are best planted by themselves in narrow beds three or four feet wide with walks between to permit easy care and cutting. The bed should be thoroughly dug to a depth of two feet, suitable drainage provided if necessary, and then filled with a rich compost—one-third good garden loam, one-third clay, and one-third well-rotted manure.

Hybrid Teas should be planted 1½ to 2 feet apart and the bushier Hybrid Perpetuals 2½ to 3 feet apart. They should be set deep enough so that the graft or joint is buried about three inches beneath the surface of the soil, otherwise the root stock may sucker and crowd out the choicer grafted rose.

Let our Landscape Department help in designing and planting your Rose Garden.

Care of Roses

The best fertilizer for roses is Bone Meal. Mix a handful in the soil around each plant once or twice during the year. (See page 42.)

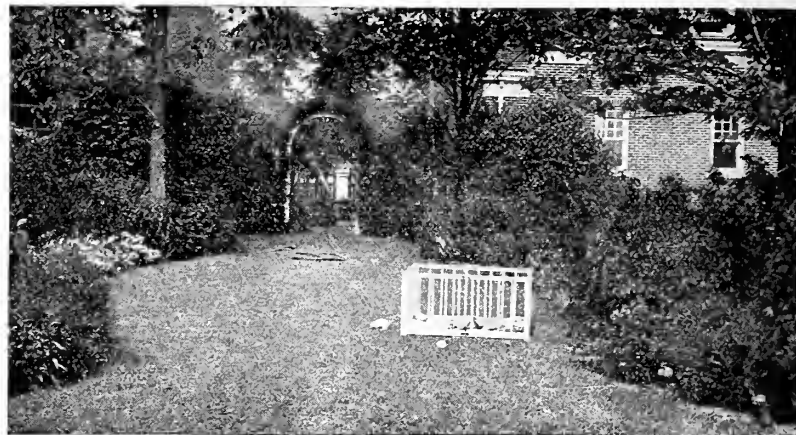

Suckers which are easily recognized by their different color and texture and their larger number of leaflets—seven instead of the usual five—should be cut off.

Much trouble from common rose pests and diseases can be avoided by planting only strong, tested varieties and by keeping the plants always in a healthy condition. For aphids, use Black Leaf 40; for preventing mildew and black spot, use Bordeaux Mixture or Fungitoxen. (See page 48.) Arsenate of Lead helps to destroy rose bugs, but hand-picking is the only sure method of control.

In winter, roses, especially the Hybrid Teas, should be protected by hilling up the earth around each plant, covering 4 to 6 buds on the lower branches. Prune to 3 or 4 buds each year.

A TALL, rich border of restful green throughout the year is possible with evergreens. They make an ideal background for a warm, sunny corner, where one may sit in late fall or early spring. An effective screen from neighboring properties.

GREEN shrubbery makes a lovely thick-foliaged border offering plenty of color at different seasons with a minimum of care. Easy to establish and maintain. Irregular shape gives a pleasing informality to the planting illustrated above.

Borders of Evergreens, Flowering Shrubs or Perennials

Evergreens

A 100-Foot Border

Offer S-38 \$185.00
Regular Price \$207.50

HERE pyramidal evergreens, varying from slender spires to bushy pyramids, are combined effectively with low-growing, spreading types. Plan showing an arrangement for this border to help you in planting will be sent with order if requested. All *three times transplanted B & B.

3 Red Pine	5 to 6 feet
2 White Fir	4 to 5 feet
6 Arborvitae	3 to 4 feet
6 Douglas Fir	3 to 4 feet
8 White Spruce	3 to 4 feet
2 Colorado Spruce	2 to 3 feet
4 Hemlock	2 to 3 feet
6 Douglas Fir	2 to 3 feet
4 Pfitzers Juniper	18 to 24 inches
7 Ground Juniper	18 to 24 inches

A 50-Foot

Evergreen Border

Offer S-39 \$97.50
Regular Price \$109.50

A BORDER of living green in winter and summer such as that illustrated above is a pleasure the year round. This selected group of 24 choice evergreens is sufficient for a 50-foot border. (All evergreens in this offer are illustrated on pages 21 to 29.) Plan showing arrangement of plants sent with order if requested.

3 American Arborvitae	5 to 6 feet
2 Scotch Pine	3 to 4 feet
2 Douglas Fir	3 to 4 feet
6 White Spruce	2 to 3 feet
2 Canada Hemlock	2 to 3 feet
1 White Fir	2 to 3 feet
2 Red Cedar	4 to 5 feet
2 Colorado Spruce	2 to 3 feet
4 Ground Juniper	18 to 24 inches

A Flowering Shrub

Border

Offer S-40 \$26.50
Regular Price \$30.15

Fifty feet of beautiful bloom.

3 Weeping Forsythia	3 to 4 feet
2 Thunberg Spirea	2 to 3 feet
3 Japanese Quince	18 to 24 inches
3 Slender Deutzia	12 to 18 inches
3 Pink Weigela	2 to 3 feet
2 Peegee Hydrangea	2 to 3 feet
3 Fuzzy Deutzia	3 to 4 feet
3 Winterberry	2 to 3 feet
3 Morrow Honeysuckle	4 to 5 feet
2 Butterfly Bush	2 year
3 European Cranberry	18 to 24 inches
3 Deutzia, Pride of Roch.	4 to 5 feet
2 Eva Rathke Weigela	2 to 3 feet
3 Van Houtte Spirea	2 to 3 feet
3 Ant. Waterer Spirea	18 to 24 inches
2 Coralberry	2 to 3 feet
3 Fortune Forsythia	3 to 4 feet

Mixed Evergreen and

Shrub Border

Offer S-41 \$50.00
Regular Price \$59.40

THIS collection of thirty-three evergreens and shrubs will form a very artistic fifty-foot border of the naturalistic type, changing from season to season and year to year but always lovely.

1 White Spruce	4 to 5 feet
1 Canada Hemlock	3 to 4 feet
1 American Arborvitae	5 to 6 feet
1 Red Cedar	6 to 7 feet
1 Colorado Spruce	4 to 5 feet
4 Morrow Honeysuckle	4 to 5 feet
4 Forsythia	4 to 5 feet
4 Deutzia, Pride of Rochester	3 to 4 feet
4 Red Twigged Dogwood	4 to 5 feet
4 Iboeta Privet	3 to 4 feet
4 Peegee Hydrangea	2 to 3 feet
4 Pink Weigela	2 to 3 feet

A 50-Foot Iris Border

Offer S-43 \$40.00
Regular Price \$45.10

THIS border will give you a striking range of color in May or June.

10 Aurea	8 Florentina
8 Tamar	5 Rhein Nixe
5 Caprice	7 Perfection
8 Rebecca	6 Her Majesty
6 Iris King	5 Rose Unique
5 Anna Farr	10 Wyomissing
6 Juniata	8 Archeveque
8 Hiawatha	5 White Knight
7 Blue King	5 Snow Queen
6 Monsignor	

An Iris border blooms freely.

A 50-Foot Border of Perennials

Offer S-44 25 varieties—146 plants \$35.00
Regular Price \$40.40

PLANT this border in front of an evergreen hedge and you will have a splendid foil for the profusion of colorful beauty that will be yours. Full description of these excellent varieties on pages 36 to 39.

7 Sneezeweed	7 Yellow Chrysanthemum	3 Felix Crousse Peony
3 Lemon Day Lily	3 Mme. Boulanger Peony	5 Beacon Phlox
6 Stokesia	8 Larkspur Hybrids	8 Shasta Daisy
8 Larkspur	5 Dwarf Alpine Aster	3 Japanese Day Lily
12 Gem Sneezeweed	6 Virginia Spiderwort	10 Hollyhock
5 Lance Coreopsis	6 Double Crimson Avers	5 Babysbreath
5 Great Azure Sage	5 Peachleaf Bellflower	5 Coral-bells
5 Dwarf Goldentuft	6 Button Chrysanthemum	5 Pauline Iris
	5 Coquelicot Phlox	

A gay border of perennials in flower.

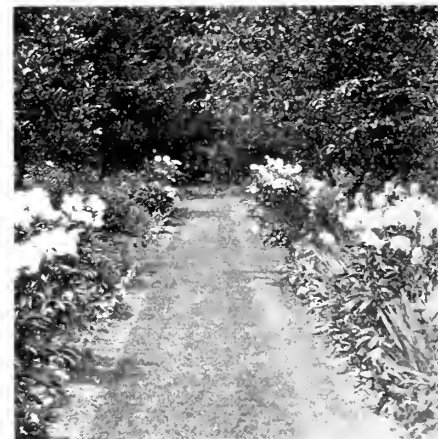

A 50-Foot Peony Border

Offer S-42 \$41.00
Regular Price \$47.50

A CAREFULLY selected assortment. The colors range from pure white to pink, rose and deep red. Some are chosen for fragrance, others for cutting.

3 Aurore	4 Mme. de Verneville
3 Virginie	4 Boule de Neige
3 Delache	3 Festiva Maxima
3 Philomele	4 Felix Crousse
5 Livingstone	5 Couronne d'Or
3 De Candolle	5 Alexandre Dumas
5 Marie Stuart	3 Baroness Schroeder

Peony blooms—handsome and showy.

A windbreak of Spruces like the one illustrated below protects gardens and buildings.

Here Arborvitae is used for a screen of moderate height.

Climbing roses transform and glorify ugly fences and tennis court backgrounds.

Screens and Windbreaks for Utility and Beauty

THOUGH serving a utilitarian purpose Screens and Windbreaks should be considered as a part of the landscape picture. Evergreens in the larger sizes are best to use because of their year-round service, though poplars and other fast-growing hardwoods may be mingled with them for quick effect.

FOR temporary uses, as about a summer cottage, the larger shrubs and even vines often serve the purpose well and economically. Windbreaks, even more than screens, to be of all-year service, should be composed solely of evergreens, and will soon become of great economic value.

WINDBREAKS mean quicker and better crops from field or garden, healthier livestock and more milk for the dairy farmer, and a saving of coal to the greenhouse keeper. They give protection against winter storms and help to conserve the moisture in the soil.

6 American Arborvitae

7 to 8 feet tall

Offer S-45 \$59.00

(Single plants \$11.00 each)

BEAUTIFUL bushy plants. Nothing better for a screen or windbreak of medium height. Particularly adapted to smaller properties. Plant 4 to 6 feet apart. See illustration above center.

6 White Spruce

6 to 7 feet tall

Offer S-46 \$51.00

(Single plants \$10.00 each)

THESE magnificent Spruces are often the choice of our customers for screening out near-by undesirable views. The illustration at left above shows the perfect protection which this species gives. Plant 4 to 8 feet.

8 Douglas Fir

5 to 6 feet tall

Offer S-47 \$75.00

(Single plants \$10.00 each)

THIS magnificent species retains its lower branches even in old age which make it particularly desirable for protecting buildings and gardens. Plant 4 to 8 feet apart.

6 Colorado Spruce

4 to 5 feet

Offer S-48 \$44.00

(Single plants \$8.00 each)

THIS exceptionally beautiful and hardy species is most desirable and may be used on the small suburban property or the large estate. Plant 4 to 8 feet apart. Little-Tree Colorado Spruces are very fine.

6 Red Pine

7 to 8 feet tall

Offer S-49 \$50.00

(Single plants \$9.00 each)

FOR a fast growing screen Red Pine is a happy choice. A magnificent evergreen and perfectly hardy. It will withstand even the difficult conditions found at seashore places.

6 White Pine

5 to 6 feet tall

Offer S-50 \$35.00

(Single plants \$7.00 each)

THESE choicest White Pines of best Little-Tree quality are especially adapted to New England conditions. Handsome and fast growing. Two types of screen are suggested by illustrations below. Plant 5 to 8 feet apart.

6 Rhododendron

3 to 4 feet tall

Offer S-51 \$35.00

(Single plants \$6.50 each)

FOR a distinctly different plant use the wonderful Rosebay Rhododendron. The glossy foliage contrasts delightfully with the rose-tinted flowers. Much used for naturalistic plantings and screens along drives. Plant 4 to 6 feet apart.

6 Climbing Roses

Strong 2-year plants

Offer S-52 \$2.40

(Single plants \$.75 each)

THESE Dorothy Perkins Roses, 3 white and 3 pink, will make a wonderfully picturesque screen of blossoms to hide an ugly fence or decorate house or garage. Easily grown over wire as illustrated above. Plant 5 feet apart.

The illustration below shows a White Pine windbreak.

Our prices include packing and are f. o. b. Framingham.

The Little-Tree evergreens offered on this page have been transplanted three or more times and are shipped with big balls of roots in native loam, burlap-wrapped.

Little-Tree White Pines screen this garage.

For further descriptions of plants offered above see pages 21, 24, 25, 26, 27, 29, 31 and 41.

Please order by name and number with remittance.

Rhododendrons conceal this building.

A WELL-designed evergreen group such as is illustrated above adds much to the beauty of the home grounds or the public park or cemetery. Here Arborvitae form the background, with spreading Junipers, Cypress, Dwarf Arborvitae, and other low-growing evergreens. At the left is a Blue Spruce.

THE illustration above shows a splendid planting of Sugar Maples along a residential street. Note how the trees are set well back from the curb to give an air of spaciousness and to provide for possible widening of the street later. See pages 31 and 32 for description and prices of street trees.

Path Entrance Group Offer S-53 \$14.00 Regular Price \$16.50

Illustrated below. 4 finest quality evergreens. 1 each of varieties listed.

Plume Cypress	2 to 3 feet
Parsons Arborvitae	18 to 24 inches
Canada Hemlock	18 to 24 inches
Mountain Andromeda	12 to 18 inches
2 Groups	8 plants \$27.00

An arrangement of Offer S-53.

PATH and drive entrance plantings greatly enhance the beauty of home grounds. The main path or drive entrance requires a well-accented, dignified planting, while simple groups like Offers S-53 and S-54, here illustrated, are adequate for the entrance to the path from street to house.

For lawn and drive plantings we suggest Red Cedar; White, Engelmann, Colorado, and Blue Spruces; White and Douglas Firs; White, Red, and Austrian Pines; The Arborvitae and Hemlock. Among the deciduous trees we recommend: Silver, Red, and Sugar Maples; The Elms and Lindens; The Oaks and Birches. These excellent varieties are offered in large sizes and splendid quality on pages 21 to 29 and 31 to 32.

Order by name and number with remittance.
Our prices include packing and are f. o. b. Framingham.

Path Entrance Group Offer S-56 \$21.50 Regular Price \$25.50

7 Evergreens. Illustration on request.

1 Blue Colorado Spruce	2 to 3 feet
1 Canada Hemlock	18 to 24 inches
2 White Spruces	18 to 24 inches
1 Douglas Fir	18 to 24 inches
2 Ground Junipers	12 to 18 inches
2 Groups	14 Evergreens \$41.50

Columnar evergreens give stately dignity.

FOR Street Plantings we recommend Red, Silver, Norway, and Sugar Maples; White Ash; White, Scarlet, Pin and Red Oaks; The Lindens and Elms. For sizes, prices, and special offers see pages 31 and 32.

Only choice specimen plants of the most ornamental varieties should be used for plantings of these types. The groups offered on this page are selected from the best evergreen species.

The correct location and construction of paths and drives in relation to house, grade and drainage are frequently a problem.

Little-Tree Landscape Service can help you by advising, plotting out, and constructing all forms of paths and drives—cement, brick, stone, flagging, gravel or macadam.

Entrance Group of Six Choice Evergreens

Offer S-54 Regular Price \$21.00 \$17.50

Used with good effect for drive entrances on small suburban properties. All first quality *B & B evergreens.

Canada Hemlock selected for potting, 3 feet tall, \$6.50 each (without tub).

This combination of Little-Tree Spruces is shipped packed in plain wooden window box painted green. Box is 3 feet long, 7 inches wide and 7 inches high. Box complete with 12 inch spruces \$4.50. 15 inch spruces \$5.00.

Our prices include packing and are f. o. b. Framingham.

Climbing roses make delightful frames for doors and windows. Use them freely on your trellises and arbors.

Beautiful bushy White Pines are unexcelled for decorative purposes. They may be trimmed for Christmas, used singly and in pairs about the house and lawn, or in pairs at the entrance. (Shipped in New England only.) Five foot trees (without pot) similar to the one illustrated above are \$7.00 each.

The container illustrated above is stone gray terra cotta which contrasts charmingly with the green foliage of the Pine. No. 600, 13 inches high, 18½ inches wide, \$8.25. Express collect.

PLANT CONTAINERS

Pots, vases, tubs and boxes of many styles and materials are described, illustrated and priced on page 46. Other kinds on display at our glass store on Pleasant Street, Framingham Centre, Massachusetts.

A glimpse of a small section of evergreens bordering Pleasant Street at Little-Tree Farms, Framingham Centre, Massachusetts.

THE plant materials offered in this catalogue are mainly the product of the two large nurseries owned and operated by Little-Tree Farms at Framingham and Framingham Centre. In these fertile lowlands, whose rich soil is drained by miles of underground pipe lines, are the hundreds of broad acres bearing their crops of valuable plant life in apparently limitless profusion and in every stage of development from tiny seedlings to mature plants, ready for their journey to your lawns and gardens.

Under these ideal conditions, coupled with the intensive cultivation and scientific care which they receive, it is but natural that the plants themselves respond with an almost unmatched vigor and vitality of growth so that grade for grade, and size for size, no better quality can be obtained anywhere. A visit to the Farms will convince you of these facts.

AT Framingham Centre are the general offices with a staff of executives, landscape architects and engineers, clerks and stenographers. Here are the Show Grounds, Demonstration Gardens and Sample Beds, where you may walk at will and select for yourself the plants that interest you.

In the new glass-enclosed Exhibition and Sales Building is a store of Garden Furniture, Tools and Specialties, together with samples of potted plants and flowers. At one end of the building is an exhibition of the work of the Landscaping and Forestry Service which cannot fail to interest you. Here, too, are courteous salesmen ready to answer your questions or fill your needs. Whether you come for pleasure or business—merely to pass the afternoon pleasantly or to discuss a vital problem in landscaping—you will find here a friendly and sympathetic welcome.

How Little-Tree Plants are Grown, Graded, and Packed

FEW realize the years of patient effort and watchful care necessary to produce specimen plants, particularly evergreens.

Take *Thuja Occidentalis* (American Arborvitae) for example. First come the tiny seeds (see above) collected by hand in their northern wilderness. They are planted by the hundred thousand in seed beds (such as are shown at the foot of the page) to germinate. A year later under the combined influence of sun, rain, and winter frosts they poke their heads above the soil in a myriad of little seedlings.

Now comes the struggle for existence. For two years these thread-like plants must be constantly watered and weeded by hand, their tender tops protected from excessive sunlight by miles of screens, before they reach the dignity of the commercial seedlings marked **S** at the right.

They are then transplanted to fresh soil and given room to develop. At the same time both tops and roots are thoroughly pruned to force a heavier and more compact growth in their new environment. At the end of another

two years they are termed "Once Transplanted" stock, the **T** grade plant shown below.

Again pruned and transplanted to new soil, the **T** grade class is given two more years of cultivation and development before it is considered ready to pass into the **TT** grade or "Twice Transplanted" class shown in the illustration at right.

Once more the transplanting and pruning process is repeated and, after two years, the evergreen is ready for graduation as **TTT** grade plant, well formed above, big rooted and vigorous below—a product to be proud of.

NO less interesting, if less lengthy, are the varied methods of procedure in the propagation and cultivation of

many shrubs and perennials with the infinite possibilities of hybridizing new varieties from the old—truly an absorbing occupation.

PACKING—**TT** grade evergreens are packed for shipment with their roots packed in damp moss or other suitable material and wrapped in heavy paper. The **TTT** grade plant is shipped **B&B** ("Balled and Burlapped"), its fibrous roots in a ball of native loam wrapped in burlap and securely tied with heavy twine. This is also the procedure in the case of many evergreen shrubs. This method not only insures its delivery in good condition but gives the plant the right start in its new environment.

It is often necessary to pack large shade trees and flowering shrubs in bales of straw to protect their tender bark in transit.

Perennials, roses, etc., may be safely entrusted to cardboard containers with roots packed in damp moss. All packing and crating necessary is included in the prices quoted except in the case of a few large sizes of Red and White Pine.

SHIPPING—Plants may be shipped by parcel post, express, freight or truck and the costs of transportation are paid by the purchaser. Many near-by customers prefer to handle this matter for themselves by having their own conveyances loaded at the Farms, thus saving time and additional costs.

Little-Tree Evergreens

THE FIRS

THESE are the most gracious of the symmetrical Conifers. Their form is the symmetrical pyramid of the Spruce and they have similar short needles and interesting cones; but they supply an attractive variation in general branch structure and in foliage tone. We grow at Little-Tree Farms those Firs which are most hardy, enduring and beautiful.

BALSAM FIR (*Abies balsamea*)

THIS is the real "Christmas Tree" of old, prized alike for the deep rich color and the delicious fragrance of its green boughs. Its native home is in our northern woods and it is effectively planted in groups, alone or with other evergreens. Its graceful habit of growth contrasts well with the stiffer Spruces and Pines. The larger trees, with their fine pyramidal form, make handsome specimens for lawn planting.

WHITE FIR (*Abies concolor*)

THE soft silvery-toned needles of the White or Silver Fir are lovely in the foreground or against the darker Conifers. Planted along the far border, their lighter color tone gives an illusion of distance much desired on small places. They are perfectly hardy and always favorites for both mass and specimen planting.

The bushy little Douglas Fir pictured here well illustrates the extraordinary density of growth which is characteristic of this species. Because of their great health, vigor and adaptability, these trees are in much demand, thriving better than most others in partial shade, wind-swept corners or in barren soil.

Little-Tree Farms is the largest grower of Douglas Firs in the East. All these wonderful trees are grown from the best Rocky Mountain seed and no better value is produced anywhere. They are especially fine for hedges, being very hardy, dense growing and easily sheared into the desired shape.

Douglas Fir

4 to 5 feet \$7.50 each

This is a good size for planting screens, windbreaks, or taller hedges.

Little-Tree landscape service can help you solve your planting problems. Write for free booklet.

Our prices include packing and are f. o. b. Framingham.
 *For explanation of grades see page 20.

DOUGLAS FIR

(*Pseudotsuga douglasii*)

THIS evergreen, also known as Douglas Spruce, is really a genus or family of its own, though it resembles both the Firs and Spruces in its pyramidal form and short needles.

Douglas Fir is valuable alike for its great endurance, its vitality and the varied beauty of its form. Through the ages it has survived bitter cold, bleak winds, poor soil—all the adversities of climate and season. A superb tree to use in extensive plantings where it forms groups of great beauty. Planted in woodlands or in the open, sheltering and bordering the garden, drive or buildings, as individual specimens or as a group, these trees are equally adaptable.

Each spring decks the whole tree with added beauty as the buds break open into fresh growing tips of tender green. As the trees mature, the lower branches hold their symmetry and density, offering no breaks or unevenness from the ground up and the trees gradually acquire a certain individuality of form, some conical, some flat topped or slightly drooping, giving decided variety to a massed planting.

Order by name and number with remittance.

THE CYPRESS - Conical Varieties

THE JUNIPERS - Dwarf Varieties

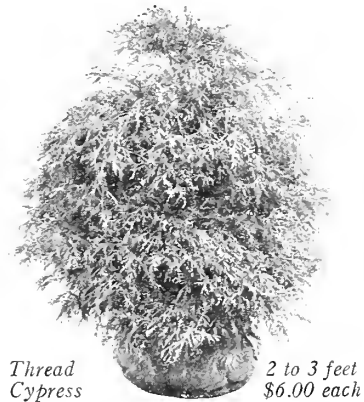

Sawara Cypress 2 to 3 feet
\$5.00 each

SAWARA CYPRESS (*Chamaecyparis pisifera*)

THIS is one of the hardiest of the Cypress family. The graceful drooping branches are covered with soft, feathery, glossy green foliage. Pyramidal in shape. It stands shearing well and makes a beautiful specimen for formal groups or the taller accents of foundation plantings. Very desirable because of its distinction.

*THRICE TRANSPLANTED B & B

Height	Each	10
2 to 3 feet	\$5.00	\$45.00
18 to 24 inches	4.00	35.00

Thread Cypress 2 to 3 feet
\$6.00 each

THREAD CYPRESS (*Chamaecyparis pisifera filifera*)

AN unusually decorative Cypress, completely different from all other evergreens in its elongated, pendulous branches. The deep olive-green foliage is very fine and slender. This is a semi-dwarf variety from the Orient, and is very effective as a single specimen or contrasting with others in a group. Fine for foundation planting.

*THRICE TRANSPLANTED B & B

Height	Each	10
3 to 4 feet	\$7.50	\$70.00
2 to 3 feet	6.00	55.00

4 Shapely Cypress
Offer S-59 \$18.00
Regularly \$20.50

One each of the four splendid varieties described above in the size illustrated. All highest quality, *thrice transplanted B & B evergreens.

Order by name and number with remittance.

A NOBLE family of highly ornamental evergreens. The foliage is characteristically fine and feathery, giving great delicacy of texture to the tree. The varieties we list are all hardy in New England but like the shelter of near-by shrubbery or buildings from winter winds. To keep growth dense and compact they should be sheared slightly each year.

Plume Cypress 2 to 3 feet
\$5.50 each

PLUME CYPRESS (*Chamaecyparis pisifera plumosa*)

A BEAUTIFUL, compact evergreen for either formal or informal groups. Dense conical habit. Erect branches with slender, feathery, bright green foliage. Stands shearing well and is an ornamental of great value.

*THRICE TRANSPLANTED B & B

Height	Each	10
3 to 4 feet	\$7.00	\$65.00
2 to 3 feet	5.50	50.00
18 to 24 inches	4.00	35.00
12 to 18 inches	3.00	25.00

Golden Plume Cypress 18 to 24 inches
\$5.00 each

GOLDEN PLUME CYPRESS (*Chamaecyparis pisifera plumosa aurea*)

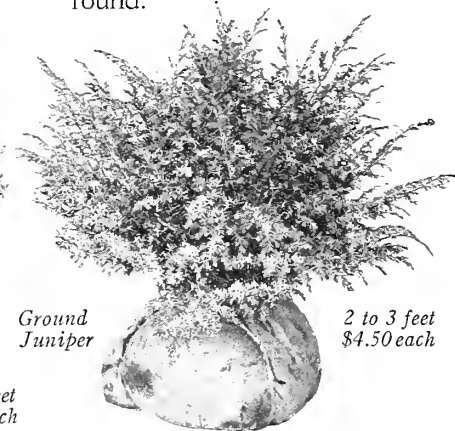

THE bright golden color of the plume-like foliage of spring lasts through the summer months and contrasts pleasantly with darker evergreens. Valuable for foreground use, well blended with the Plume Cypress shown above.

*THRICE TRANSPLANTED B & B

Height	Each	10
2 to 3 feet	\$7.00	\$65.00
18 to 24 inches	5.00	45.00
12 to 18 inches	3.50	30.00

*For explanation of grades see page 20.

THE semi-dwarf varieties of the Juniper family, like the Yews, hold a unique place in landscape art, furnishing the finest material for low evergreen groups in this climate. Their great beauty enriches any ornamental planting of the taller evergreens. Extensively used bordering walks, drives and steps or for foundation planting. Good growers on sandy banks and slopes where they make a beautiful ground cover the year round.

Ground Juniper 2 to 3 feet
\$4.50 each

GROUND JUNIPER (*Juniperus communis*)

ONE of the best and most loved low-growing evergreens which combines extreme hardiness with grace and beauty. Splendid for poor soil and rocky, sloping ground. The form varies from prostrate to erect, and the foliage is light, clear green or silvery gray. In the autumn attractive frosty blue berries appear in profusion, attracting the birds.

*THRICE TRANSPLANTED B & B

Height	Each	10
2 to 3 feet	\$4.50	\$40.00
18 to 24 inches	3.50	30.00
12 to 18 inches	2.75	22.50

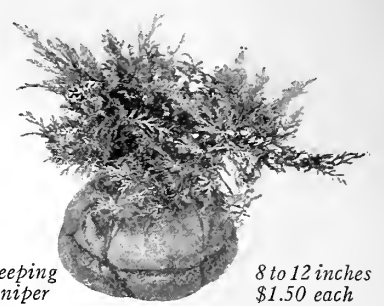

Pfitzer Juniper 2 to 3 feet
\$6.50 each

PFITZER JUNIPER (*Juniperus chinensis pfitzeriana*)

A choice low evergreen with widely spreading horizontal branches. The foliage is soft and of a fine rich green color. Very hardy. Excellent for a low foreground, in foundation planting, or along the walk or drive. Especially good on rocky slopes where its beautiful fan-like form is displayed to good advantage.

*THRICE TRANSPLANTED B & B

Height	Each	10
2 to 3 feet	\$6.50	\$50.00
18 to 24 inches	4.50	40.00
12 to 18 inches	3.50	30.00

Creeping Juniper 8 to 12 inches
\$1.50 each

CREeping JUNIPER (*Juniperus horizontalis*)

WITHOUT exception the finest really creeping evergreen. The branches are low-lying, horizontal, forming a wide thick carpet of beautiful clear green foliage that is exceedingly ornamental. This combination of rich color, and the prostrate habit is unique. It is perfectly hardy and ideal for edging, for massing along path, drive or steps, and for rock gardens. Grows less than a foot high but spreads several feet wide. Landscape architects throughout the country consider this an extremely valuable variety for ornamental planting.

*THRICE TRANSPLANTED B & B

Height	Each	10
8 to 12 inches	\$1.50	\$12.50

Savin Juniper 18 to 24 inches
\$4.50 each

SAVIN JUNIPER (*Juniperus sabina*)

A HANDSOME, low-growing evergreen with thickly foliated slender branches spreading upward from the center. Savin Juniper is one of the loveliest dwarf evergreens to use in foundation planting. It contrasts pleasantly with the rounded form of the Globe Arborvitae or the Dwarf Mountain Pine. Several plants should be grouped together for best effect.

4 Low-Growing Junipers
Offer S-60 \$15.25
Regularly \$17.00

One each of the four splendid varieties described above in the size illustrated. All highest quality, *thrice transplanted B & B evergreens.

Order by name and number with remittance.

THE JUNIPERS-Erect Growing Varieties

A prettily shaped tree of medium height, to use wherever a short pyramidal form is desired.

Little-Tree Junipers are excellent for ornamental planting.

All carefully grown specimens of high quality.

Irish Juniper Specimen
3 to 4 feet
\$4.50 each

IRISH JUNIPER

(*Juniperus communis hibernica*)

A HIGHLY decorative, slender spire of light bluish green. Very close, compact habit of growth, and somewhat irregular outline. A favorite for potting or formal accent in the garden. Attractive either side of the doorstep or to contrast with the dwarf spreading evergreen types.

The Irish Juniper is perfectly hardy in cold climates, but should be closely sheared and protected from high winds in late winter to keep the foliage at its best.

*THRICE TRANSPLANTED B & B

Height	Each	10
3 to 4 feet	\$4.50	\$40.00
2 to 3 feet	3.50	30.00

RED CEDAR

Specimens for Potting

Individually selected with extra care for their perfect form and thick, even growth

Height	Each
8 feet	\$22.00
7 feet	16.00
6 feet	13.00
5 feet	10.00
4 feet	7.50
3 feet	6.00

All several times transplanted, B & B

THE compact form typical of these Junipers is very pleasing, and particularly fits them for formal use. Specimens matched in pairs may accent the garden design or emphasize the entrance to drive or building. Should be lightly sheared to insure dense, even growth. Several trees of this type informally grouped together will effectively break up a long border or add new interest to mass plantings.

RED CEDAR

(*Juniperus virginiana*)

THIS tall, narrow juniper is a picturesque feature of the whole New England countryside. Its slender spires climb over rocky hillsides or cluster in open pastures, in perfect harmony with the landscape.

Indifferent alike to wet ground and dry, barren soil, to the biting winds of winter and burning summer heat, it is vigorous and hardy in any sunny location. The foliage is fine and scale-like, frequently varying in color and texture. Some branches are soft and feathery, of a dark olive green, while others are harsh, prickly, and of a brighter color. Small light-blue berries frequently appear in great profusion and are very attractive to the winter birds.

The form varies from a narrow, even column to a bushy, tapering pyramid like that of the Arborvitae. No other tree native to this country so nearly approaches the Cypress of southern Europe in classic form. This characteristic has long endeared it to lovers of beauty in our country. The rugged, stately outline is seen to best advantage silhouetted against the sky, measuring the height of a tall building, or accenting the different levels of slope and terrace. Associated in nature with sloping rather than level ground it can be delightfully grouped wherever this occurs with the low growing Ground Juniper.

RED CEDARS are ideally suited to a great variety of formal uses. The fine height gives depth and grandeur to a broad vista and enriches the flatness of formal beds, and low planting. They are superbly used as formal accents to emphasize the balance and symmetry of garden design, to mark the approach to building or drive entrance and to frame formal views.

The Red Cedars are very desirable for potting as they are dense, tall, and narrow. In a long row along path or drive they give a pleasing, even rhythm of light and shadow such as is possible with few other evergreens. They can be used readily in a small garden or for the tall accents about the house as the branches do not have a wide spread or cut off the sunlight from other plants around them. Furthermore they are easily trimmed to form narrower, denser foliated trees.

Little-Tree Farms is one of the few remaining sources of supply for the larger sizes in evergreens and our big Red Cedars are particularly fine. All are trimmed as they grow to form shapely even-foliated trees. Use thrice transplanted trees 6 to 12 feet tall, such as the specimen illustrated at the upper right, for immediate effect.

The smaller sizes are increasingly popular for mass planting and wherever a large number of trees are used.

Note the variety of sizes and the reasonable prices at which these high quality trees are offered.

*For explanation of grades see page 20

SPINY GREEK JUNIPER

(*Juniperus excelsa stricta*)

A SPLENDID and remarkably interesting juniper of medium height for formalistic planting. The foliage is somewhat prickly, unusually compact, and of a rich blue green. In shape the Greek Juniper is broad at the base, tapering to a point at the top.

As the tree matures it assumes a characteristically wavy, uneven outline that is decidedly attractive. It should be lightly sheared and given protection from winter winds to keep the foliage dense and green. A pair of these junipers make fine accents along the path, at the doorstep or in the formal garden. Well adapted for foundation planting as it seldom grows over five feet tall.

Greek Juniper Specimen

THE SPRUCES

A noble family of conifers, pyramidal in form, of massive structure and extremely rugged constitution. An erect conical shape and stiff horizontal or slightly drooping branches are characteristic of this species. Very valuable in all types of decorative landscaping. Little-Tree Spruces are notable for vigor of root and top, for symmetry and clear color.

White Spruce 3 to 4 feet \$4.50 each

WHITE SPRUCE (*Picea canadensis*)

WHITE Spruce (illustrated above) by a Little-Tree specimen is justly considered one of America's best conifers. It is a favorite among tree-lovers as it combines great vigor and wide usefulness with marvelous beauty and distinction. It is a rapid grower, extremely hardy, and has a compact, conical shape with shimmering, silvery-green foliage which is, in some trees, almost as blue as the Blue Spruce. It withstands exposure to salt air and pressure of snow or ice.

Little-Tree Farms has long been known as the headquarters for superb White Spruces, from small seedlings to the largest lawn specimens. Carefully and scientifically grown the trees attain a maximum of health, hardiness and vigor.

White Spruce bears shearing exceptionally well and may easily be kept within bounds. Its great density, fast growth and extreme hardiness make it especially desirable for protection from wind, storm, or undesirable views. Used for borders and screens; at entrances and along drives; on the lawn; for windbreaks and for hedges.

For woods-planting use the fine quality small transplants and seedlings offered at low prices.

RED SPRUCE (*Picea rubra*)

RED SPRUCE is a fine, densely foliated spruce, well adapted for use in moist and shady places. Warm deep green in color. Especially valuable for the north and for high elevations, in fact the most valuable spruce of its natural habitat. (Cannot thrive in hot, dry places.) Combines well with firs and other spruces. Illustrated below. The sizes offered here are suitable for lawn specimens, screens and group plantings of all kinds.

Red Spruce 5 to 6 feet \$7.50 each

ENGLEMANN SPRUCE (*Picea englemanni*)

THIS rare Spruce (illustrated below) has unusual beauty of form and color. The slender spreading branches, in close whorls, form a dense pyramid. A Rocky Mountain species of extraordinary hardiness, its color suggests the Blue Spruce though the needles of the Englemann Spruce are softer and more pliant.

Many plant lovers consider it superior even to the better known Blue Spruce. Grows slowly. Where a single specimen of rare beauty is required this spruce is unexcelled. Its exceptional symmetry makes this spruce a favorite for use in tubs and pots.

Use the thrice transplanted quality for all decorative planting. The seedlings are for quantity planting or to grow on in nursery rows.

Engelmann Spruce 3 to 4 feet \$8.00 each

Norway Spruce 18 to 24 inches \$2.00 each

NORWAY SPRUCE (*Picea excelsa*)

THIS handsome sturdy evergreen grows very rapidly. For this reason it is used extensively in wind-break plantings or as a quick growing timber crop, as well as for purely decorative purposes. Its dark-green foliage is dense and graceful and in maturity the lower branches sometimes lie on the ground.

Use Little-Tree three times transplanted Norway Spruces (illustrated above) for decorative groups about the lawn, for windbreak and screen plantings.

For valuable commercial plantings and future Christmas trees, use Little-Tree once and twice transplanted stock priced below. These sturdy, well-grown plants will give good results.

HERE'S WHAT one enthusiastic customer writes about a Little-Tree Spruce:

Glendale, L.I., N.Y.

May 4, 1928

"A few lines to acknowledge receipt of shipment under your order A-3871. This arrived O.K. safe and sound. A shipment packed as this was would travel several thousand miles and arrive safe.

This certainly is a dandy tree. Everyone admires it, they all say it is a beauty.

Thanking you for your excellent service on this small order."

*For explanation of grades see page 20

THE COLORADO SPRUCES

Including the Green and Blue Varieties

ALL Little-Tree Colorado and Blue Colorado Spruces are grown from seed of hardy trees of the high cold regions of the Rocky Mountains, their native home.

Pyramidal in form, the full-foliaged branches extend to the ground or near it and are covered with lustrous needles ranging in color from very clear green, with no trace of blue, through various shades of bluish green to a true silvery blue. The color is attractive in all of its variations. Magnificent in health, vigor, and in endurance, this is one of the most striking evergreens as well as one of the hardiest and best loved.

For ornamental plantings of all kinds these spruces are used freely and are very handsome whether planted singly or grouped. In planting about the house on the lawn or along the drive use the three times transplanted quality, and for aesthetic forest plantings use the seedlings and once transplanted grades.

The Colorado and Blue Colorado Spruces are favorites for tubs and pots. We offer below selected stock suitable for this type of planting.

COLORADO SPRUCE

(*Picea pungens*)

COLORADO SPRUCE has always been a specialty of Little-Tree Farms. The color of these is green or slightly bluish green and the form is a regular pyramid. We can unqualifiedly recommend the three times transplanted Colorado Spruces for all ornamental plantings, single and grouped. Especially good for tubs and pots.

The once transplanted quality is unusually well adapted for use in field and forest plantings.

Plant a row of these little transplants in your garden and in a few years you'll have ornamentals for use in your decorative plantings. We sell for this purpose the small once transplanted "nursery run," which means you get all colors from green to true blue.

BLUE SPRUCE

(*Picea pungens glauca*)

THIS spruce is the bluest variant of the Colorado Spruce—the tree you mean when you ask for a "Blue" Spruce. The fine specimens here offered have a beautiful silvery blue color. It is said that Little-Tree Farms has the largest and finest collection of "Blue" Spruces in the country.

The Blue Colorado Spruces are without peer for use in ornamental pots, at doorways, in gardens as accents, and as lawn specimens. Little-Tree Farms annually supplies thousands of these spruces to customers who want the best.

The "Blues" are at their best when planted with a group of other conifers possessing variations of the same silvery-bluish green. Such for example are the White and Engelmann Spruces, the White Fir and, among the lesser evergreens, certain variants of Red Cedar and other Junipers. Too much cannot be said of the hardiness and vigor of growth of this noble evergreen.

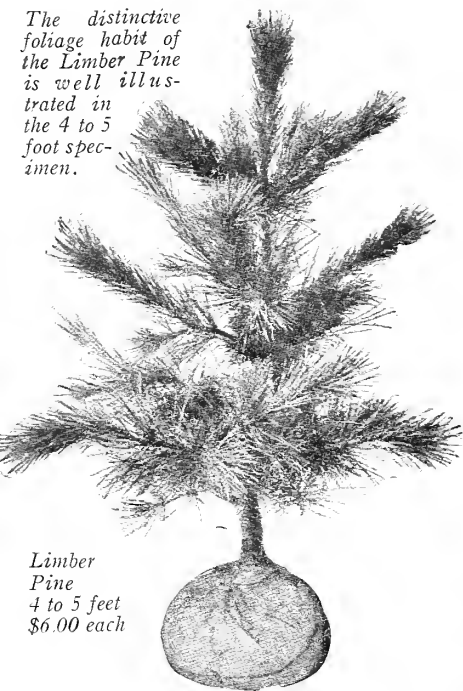

Plant your "Blue" Spruce in dark rich garden loam to procure and maintain the deepest blue color. It will be a constant joy in your garden.

THE PINES

The distinctive foliage habit of the Limber Pine is well illustrated in the 4 to 5 foot specimen.

Limber
Pine
4 to 5 feet
\$6.00 each

LIMBER PINE (*Pinus flexilis*)

A PINE of wonderful color, almost as blue as the Blue Spruce. Unique as a border or lawn evergreen. Its branches reach up, and its needles surround the branchlets in a close sheath of blue green, not fringing or spraying out, but held toward the twig with charming and unusual effect.

Little-Tree Limber Pines grown from seed collected in the Rocky Mountains are rugged, vigorous and hardy. For New England only.

each

DWARF MOUNTAIN PINE

(*Pinus montana mughus*)

OFTEN called Mugho Pine. One of the hardiest and best dwarf evergreens. Distinctly round and compact, ideal for foundation planting, edging or low massing. In spring, bright colored new shoots like tiny candles adorn them and contrast splendidly with other evergreens.

each

RED PINE (*Pinus resinosa*)

THE enduring qualities of Red Pine are very like those of Austrian Pine. It withstands the harshest New England winters. It grows on poor soils and near the salt spray.

This magnificent evergreen, also called Norway Pine, is the most beautiful and valuable of the hard pines, a monarch among trees. It has masses of soft, closely bunched needles, long and dark green. The trunk is rugged, straight, and has an artistic reddish color in youth, maturity, and age. See illustration at right.

Little-Tree Red Pines are strong, hardy trees, unexcelled for ornamental and utilitarian plantings. Plant the larger sizes along your drive, bordering your lawn or as a background for your shrub border. An ideal screen or wind break. (See page 17.) Note the unusually low prices below.

Red Pines are extensively used for reforestation. Use smaller sizes for all woods plantings.

EVERGREENS—majestic and graceful—rugged and of beauty beyond description—these are the Pines. They are growing in fragrant beauty all over New England, out into the great Northwest and far down into the Sunny South. Theirs are the lines that give the distinctive aspect of freedom and grandeur to our northeastern landscapes and they are, perhaps, the most characteristic evergreen of this section. Little-Tree Pines are hardy and handsome—the varieties best suited to our climate.

SWISS STONE PINE (*Pinus cembra*)

A RARE semi-dwarf Alpine evergreen with deep green needles, silvery underneath. Use freely in ornamental plantings or in ornamental groups about the house and lawn. Is excellent for potting. For New England only. Illustrated at left.

\$7.00
each

Austrian Pine
4 to 5 feet
\$8.00 each

AUSTRIAN PINE (*Pinus nigra*)

THIS hard pine has a wide spread of great branches with long, stiff, dark-green needles. Its resilient structure makes it most valuable for planting under adverse conditions of sweeping wind, salt spray, poor soil and dry hilltops. Especially desirable for protective plantings around country and seaside homes where these conditions often prevail. Unusually rugged and picturesque. Attractive with other pines. Little-Tree Austrian Pines are strong, sturdy, well-rooted plants, ready to grow under difficult conditions.

THESE three vigorous, rugged Pines are suitable for finest landscape plantings. An excellent choice for windy country or seashore places. Each pine has been transplanted several times and has a big ball of roots in burlap-wrapped native loam.

- 1 Scotch Pine 7 to 8 ft. tall
- 1 Scotch Pine 5 to 6 ft. tall
- 1 Austrian Pine 4 to 5 ft. tall

Order by name and number with remittance.
Our prices include packing, except as indicated,
and are f. o. b. Framingham.

Expert growing with frequent transplanting, together with careful digging and packing for shipment, assures almost certain success in moving these handsome specimens.

Many thousands Little-Tree Pine are shipped each year all over New England for ornamental and protective plantings and for reforestation of waste places.

Plant Little-Tree White Pines in the larger sizes, like the fine specimen illustrated below, for immediate enjoyment and leave a delightful heritage for those who come after you. Their stately beauty increases with their stature.

White Pine

10 to 12 feet
\$13.00 each

WHITE PINE

(*Pinus strobus*)

FOR sheer breath-taking beauty there is no tree like the White Pine. Call it majestic, graceful, rugged, handsome, the supremely beautiful American tree, the "Living Glory of New England"; use all the adjectives descriptive of beauty and glory you can find; assemble all the superlatives of Song and Story; name it with the poets "The King of Trees"; these are feeble descriptions of its glorious perfection.

Its towering size and ample spread in maturity, its rich

fragrance, its lovely, soft density in youth, and its deep, clear color always make this the most appreciated of all evergreens for garden backgrounds, home groves, and plantings along drives and paths.

Plant White Pine for the exquisite grace of its soft foliaged branches ever reaching out in horizontal sprays—the marvelous beauty of its outline against the sky and the comfortable feeling of seclusion its thick branches afford. Revel in its coolness and charm in

(White Pine—continued)

summer; bless the protection from snow and wind it gives in winter.

Plant a specimen on your lawn and know the White Pine more intimately. Enjoy its soft silvery green color and spreading low-flung branches; spangle it with lights when Christmas comes; use its sprays for decoration; make an outdoor sitting-room under its shade and breathe its health-giving odor.

Rapid growing and hardy, it is one of the best commercial trees for New England and is widely used for reforestation.

The once transplanted quality offered below is suitable for both commercial and pleasure woods.

Little-Tree White Pines are the best that can be grown. We produce this magnificent species from selected healthy northern seed and the plants are expertly cared for so that they become fine full-foliaged specimens like the one shown at the left. Economical methods of quantity production enable us to offer exceptionally fine trees at remarkably low prices. Shipped in New England only.

White Pine Grove

Offer S-66 \$48.50

Regular Price \$60.00

FIFTEEN WHITE PINES, 4 to 6 feet tall. Thrice transplanted quality with heavy roots in ball of burlap-wrapped loam.

You may have a place of peace and beauty and a playground for your children, a place of cool and quiet for afternoon tea, or a small woods for profit at a very moderate cost.

These unusually fine bushy White Pines grow very rapidly and are sure to bring maximum results in minimum time. Plant 8 to 10 feet apart for best results.

Order by name and number with remittance.

Baby Pines

Offer S-67 \$12.00

Regular Price \$20.00

FOR reforestation or woods planting. Best quality once transplanted Pines.

40 White Pines	6 to 8 inches
40 Scotch Pines	3 to 6 inches
40 Red Pines	4 to 8 inches
40 Austrian Pines	4 to 8 inches

In shipments outside New England Scotch or Red Pine will be substituted for White Pine.

Order by name and number with remittance.

SCOTCH PINE

(*Pinus Sylvestris*)

A VIGOROUS fast-growing European Pine with short blue-green needles. No other pine, not even the Austrian, excels it in rugged hardness and adaptability to the most difficult conditions of soil and climate.

It is equally at home on mountain slopes or exposed to the salt spray of Atlantic gales; from sleet and ice storms it comes up smiling.

Full foliaged when young, it tends with age to adopt an artistic irregularity of outline that is the delight of the landscape gardener. It is especially good for wind and snowbreaks and protective belt plantings on poor soil and in exposed locations.

For finest decorative plantings use the three times transplanted quality. For large utility plantings, including woods planting, use the once and twice transplanted grades.

Canada
Hemlock3 to 4
feet
\$6.50
each**CANADA HEMLOCK**

(Tsuga canadensis)

THE Canada or American Hemlock is an evergreen tree of rare charm,—a native of our northern woods. Its richly toned, gently drooping, dark foliage is invaluable in landscape planting of all types, ranging from potted specimens decorating steps or terraces to forest planting in cold or damp gorges.

Often the first choice of landscape artists for woodland plantings or for shady corners with northerly exposure where it may well be combined with Rhododendrons and Mountain Laurel.

When sheared it forms a rich, impenetrable mass of soft foliage, even textured and dense, holding well the outline desired. A well-grown hemlock hedge is a source of lasting satisfaction and is exceedingly beautiful.

A WONDERFULLY graceful evergreen is this "lady of our woods," growing into a tall, irregular pyramid with wide-spreading drooping branches. The color is a deep full green and the needles—short and blunt—carried horizontally on slender branches, give the foliage a lightness and charm peculiar to this species.

Miniature cones half an inch long adorn the tree in winter, and graceful sprays are much desired for wreaths and winter decoration.

It thrives in semi-shaded conditions, on northerly slopes, and prefers damp rich soil and partial shelter from the high winds and hot suns of midwinter.

(Canada Hemlock, continued)

Little-Tree Farms is unusually successful in growing hemlocks. We produce them in quantity and by economical methods which enable us to offer the finest quality stock at very reasonable prices.

For foundation planting, garden hedges, and border groups use Little-Tree three times transplanted Hemlocks. If you want a very low hedge, use the twice transplanted grade. Our once transplanted quality is especially desirable for naturalistic plantings and extensive wood plantings.

**AMERICAN
ARBORVITAE**

(Thuja occidentalis)

ARBORVITAE—"The Tree of Life"—a truly royal evergreen—is one of the best known, least expensive, and most loved of the evergreens. Extensively planted by our grandfathers, it is one of the few evergreens they found easy to grow well.

Many fine old trees in our New England countryside bear witness not only to their long life and great beauty, but to their suitability for planting as lawn specimens, in thick hedges or sheltering backgrounds or as accents in the garden—the very same purposes for which they are planted today. This handsome evergreen is a favorite not only for great gardens and spacious grounds, but little gardens and modest homes.

The shape of the tree varies from a plump, rounded spire to a slim pyramid, as illustrated in the two Arborvitae specimens shown on this page. The flat, lacy sprays of foliage have a tendency to stand vertically, instead of horizontally, a characteristic shared by few other species. The foliage is compact and of fresh bright-green color. The lightest of shearing or shaping brings the Arborvitae to the absolute symmetry desirable in the formal garden. Left unsheared it is attractive for informal types of planting.

Little-Tree Farms Arborvitae are known and planted all over the country. From their magnificent roots to their shapely full-foliaged tops, they are fitted for absolute success in every type of planting. Use the three times transplanted plants for all decorative plantings. Use the smaller grades for large "field" plantings. Arborvitae thrives even in wet places and in partial shade.

Specimen Arborvitae for Potting

THE Arborvitae is a favorite for planting in tubs and pots. For this kind of planting we have selected the very finest specimens offered below.

8 feet tall	\$14.00 each
7 feet tall	12.00 each
6 feet tall	10.00 each
5 feet tall	8.00 each
4 feet tall	6.00 each
3 feet tall	4.50 each
2 feet tall	3.50 each

These specimens have been transplanted three or more times and are shipped with ball of native loam burlap-wrapped.

Suitable containers ranging from strong wooden tubs to handsome artificial stone and terra cotta pots are offered on page 46.

*For explanation of grades see page 20.

Mountain Laurel Flowers

Little-Tree Evergreen Shrubs

Rhododendron Flowers

ROSE DAPHNE (*Daphne cneorum*)

A CHARMING little evergreen for the rock garden or wild garden. Grows about one foot tall and has fine gray-green foliage. Prized for its deliciously fragrant rose-pink flowers in June. Give rich soil and winter protection.

*THRICE TRANSPLANTED B & B			
Height	Each	10	100
8 to 12 inches	\$1.50	\$14.00	

WINTERCREEPER (*Euonymus*)

THE very best all-round broadleaf evergreens, hardy in New England, are the Wintercreepers or Evergreen Bittersweets. The foliage, illustrated below, is thickly borne and beautifully glossy. Handsome at all seasons of the year and ideal for a great variety of uses. They are typically low shrubs or climbing vines which root as they spread over the ground, forming dense carpets.

Our finest hardy substitute for both English Ivy and Box. It is easily trained as a vine over stone, brick, and wood and may be grown over strong wire or netting for a very narrow evergreen screen or hedge. Wintercreeper beautifully clothes the trunks of trees, clinging by rootlets and frequently reaching twenty or thirty feet in height. It forms a handsome bush or hedge, well worth the trouble of careful shearing while young. An admirable plant for the north side of buildings, for ground cover and for slopes or banks. The best varieties are offered below:

GLOSSY WINTERCREEPER (*Euonymus radicans carrieri*)

Euonymus Leaves front door.

A LOW shrub type, not a climber, with spreading branches and beautiful shiny green leaves. Makes a fine low hedge or bush for planting near the front door.

*THRICE TRANSPLANTED			
Grade	Each	10	100
2 year	\$.75	\$6.50	\$60.00

5 best quality plants.

1 Mountain Laurel	12 to 18 inches
2 Yuccas	4 year
2 Wintercreepers	3 year

Order by name and number with remittance.

Winter-
creeper
4 year
\$1.00 each

WINTERCREEPER (*Euonymus radicans*)

A delightful low-spreading or trailing evergreen with fine, glossy, bright-green leaves, sometimes marbled with lighter color in early spring. Excellent as an edging plant, and ground cover under trees or in rock gardens. Very hardy.

Grade	Each	10	100
6 year	\$1.50	\$13.50	\$125.00
3 year	.75	6.50	60.00

VARIEGATED WINTERCREEPER

(*Euonymus radicans variegata*)
A STRIKING form with narrow and interesting leaves marked by a broad margin of white. Very decorative among the evergreens or contrasting with the green Wintercreeper.

Grade	Each	10	100
5 year	\$2.00	\$15.00	\$125.00

Bigleaf Wintercreeper
6 year \$1.50 each

BIGLEAF WINTERCREEPER

(*Euonymus radicans vegata*)
THE Evergreen Bittersweet, which flowers and fruits freely. Small clusters of white flowers followed by brilliant orange-yellow seeds in the fall, very similar to our American Bittersweet. The most bushy and vigorous of all Wintercreepers. Large, roundish leaves. It clings to any rough surface. Lovely in rock gardens, where its fruit appears to good advantage.

Grade	Each	10	100
3 year	\$1.00	\$8.00	\$70.00

A VALUABLE group of plants of various species, characterized by broad leaves remaining green throughout the winter—distinct from the fine needles and scale-like foliage of the coniferous evergreens. They thrive even in shady places.

Moun-
tain
Laurel

18 to 24
inches
\$3.00 each

MOUNTAIN LAUREL (*Kalmia latifolia*)

THIS favorite among our native shrubs has abundant large clusters of beautiful white or rose-tinged flowers in June. Foliage much used for winter decoration. A splendid shrub of medium size for shady places, foundation planting, paths, drives, and open woods. Requires a well-drained acid soil, and is equally at home in moist or dry places, sun or shade. Very hardy. One of the finest ornamental shrubs.

ROSEBAY RHODODENDRON

(*Rhododendron maximum*)

THE finest evergreen shrub native to this country. The Rosebay is the largest of the Rhododendrons offered here, and perfectly hardy. Tall spreading form with broad, tough, glossy, green leaves all the year round. Late in June it bears many large clusters of showy lavender pink flowers.

Much used for drives and paths and for under-planting in pleasure woods. Delightful for foundation plantings on the north side of buildings and as a background for garden or border to the lawn. Loves shade and acid soil.

Write for prices on carload lots of collected Rhododendrons for mass planting.

18 to 24 inches	2.00	15.00

JAPANESE BARBERRY

(*Berberis thunbergii*)

ONE of the finest and best loved shrubs. Remarkable for its low dense growth, brilliant autumn foliage, and red fruits through the winter. Very hardy. Thorny. A favorite for hedges and borders, or foundation plantings. Vigorous grower. Endures partial shade.

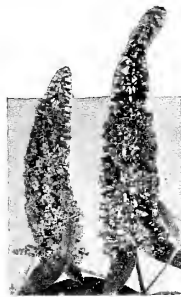

Height	Each	10	100
18 to 24 inches	\$.50	\$3.50	\$25.00
12 to 18 inches	.40	2.50	20.00

OX-EYE BUTTERFLYBUSH

(*Buddleia davidi magnifica*)

A Nextremely graceful and decorative midsummer flowering plant, also known as Summer Lilac. The lilac-purple flowers, borne in long sprays, are exceedingly fragrant, and attract many butterflies. New growth comes up from the roots each year and quickly forms a robust woody shrub, four to six feet high, covered with lovely blossoms. Succeeds in poor soil in any sunny location.

Grade	Each	10
2 year	\$.60	\$5.00

SIBERIAN PEA-TREE

(*Caragana arborescens*)

A Attractive upright shrub, reaching 6 to 8 feet, with pea-shaped yellow flowers in June and July. Finely divided, light, airy foliage. Prefers sun.

Height	Each	10	100
4 to 5 feet	\$.90	\$8.00	\$75.00
3 to 4 feet	.75	6.00	55.00
2 to 3 feet	.60	5.00	40.00

SUMMERSWEET

(*Clethra alnifolia*)

SHOWY spikes of fragrant white flowers, July to September. Smooth, sharply serrated leaves. Often called Sweet Pepperbush. Grows well in shade.

Height	Each	10	100
2 to 3 feet	\$.75	\$6.00	\$50.00
18 to 24 inches	.60	5.00	40.00

CORAL DOGWOOD

(*Cornus alba sibirica*)

TALL and unusually erect shrub with bright coral branches. Small white flowers in spring; blue berries in autumn. Very hardy. Its brilliant fall coloring is extremely effective. Useful for backgrounds.

Height	Each	10	100
3 to 4 feet	\$.50	\$4.00	\$30.00
2 to 3 feet	.40	3.00	25.00

GRAY DOGWOOD

(*Cornus paniculata*)

TALL, hardy, free-flowering shrub. White blossoms, May and June. White berries with red stems in autumn. Gray branches. Excellent for mass planting in sun or partial shade.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.00	\$40.00
18 to 24 inches	.50	4.00	30.00

RED-OSIER DOGWOOD

(*Cornus stolonifera*)

TALL spreading shrub with dark, blood-red branches particularly effective in winter and early spring. Fine autumn coloring. Very hardy.

Height	Each	10	100
5 to 6 feet	\$1.00	\$9.00	\$80.00
2 to 3 feet	.50	4.00	35.00

GOLDENTWIG DOGWOOD

(*Cornus stolonifera flaviramea*)

SIMILAR to Red Osier but has bright yellow branches. Showy white flowers and fruit. Lovely in combination with other dogwoods or fruiting shrubs.

Height	Each	10	100
3 to 4 feet	\$.75	\$6.00	\$50.00
2 to 3 feet	.60	5.00	40.00

WILSON COTONEASTER

(*Cotoneaster wilsoni*)

ONE of the rarer plants of this unusual group. Very hardy. The spreading branches are covered with small, glossy, dark-green leaves. Small pink flowers in spring. Profuse dark-red berries in fall. Excellent for fall color in borders or to train against walls.

Height	Each	10
2 to 3 feet	\$1.25	\$10.00
18 to 24 inches	1.00	9.00

THICKET HAWTHORN

(*Crataegus coccinea*)

A BUSHY shrub or small tree of medium height covered with large single white flowers in spring and followed by scarlet fruits in fall. Good in shade. Thorny; fine for protective hedges.

Height	Each	10	100
3 to 4 feet	\$1.25	\$10.00	\$80.00

FLOWERING QUINCE

(*Cydonia japonica*)

A CHARMING shrub, a favorite with everyone. Numerous scarlet red blossoms make it one of the glories of the spring garden.

Height	Each	10	100
18 to 24 inches	\$.65	\$6.00	\$50.00

Height	Each	10	100
3 to 4 feet	\$.75	\$6.50	\$60.00
2 to 3 feet	.60	5.00	45.00

PRIDE OF ROCHESTER DEUTZIA

(Deutzia scabra Pride of Rochester)

THIS lovely old favorite will thrive in almost any well-drained soil. Large white flowers faintly tinged with rose in June. Our prices unusually low for high quality plants.

Height	Each	10	100
5 to 6 feet	\$1.00	\$8.00	\$70.00
3 to 4 feet	.60	5.00	40.00
2 to 3 feet	.50	4.00	30.00

EVA RATHKE WEIGELA

(Diervilla Eva Rathke)

A WELL-LOVED Weigela. This choice, erect, small variety is particularly desirable for foreground planting. Abundant, deep carmine-red flowers through the summer. *Illustrated at right.*

Height	Each	10	100
2 to 3 feet	\$.85	\$7.50	\$70.00
18 to 24 inches	.75	6.50	60.00

Springtime Group

Offer S-85 \$6.25

Regular Price \$7.20

10 hardy shrubs, one each of following:

1 Sweet Mockorange	5 to 6 feet
1 Arrowwood	4 to 5 feet
1 Forsythia	3 to 4 feet
1 Scentless Mockorange	3 to 4 feet
1 Vanhoutte Spirea	2 to 3 feet
1 Purple Lilac	2 to 3 feet
1 White Lilac	2 to 3 feet
1 Red Osier Dogwood	2 to 3 feet
1 Jet Bead	2 to 3 feet
1 Japanese Quince	18 to 24 inches

PINK WEIGELA

(Diervilla rosea)

PROFUSE pale and deep rose blossoms in May and June. A deservedly popular variety for group plantings.

Height	Each	10	100
2 to 3 feet	\$.60	\$5.00	\$45.00
18 to 24 inches	.50	4.00	35.00

SOUTHERN BUSH HONEYSUCKLE

(Diervilla sessilifolia)

A HARDY, clean, foliated shrub of dwarf spreading habit. Small pale yellow flowers in irregular clusters. Good for foundation planting.

Height	Each	10	100
18 to 24 inches	\$.50	\$4.00	\$35.00

PEARLBUSH

(Exochorda grandiflora)

A SLENDER spreading shrub of tall upright growth with pretty, narrow leaves lighter on the underside. Very early in the spring, almost before the leaves appear, the whole bush is covered with dazzling white flowers.

Height	Each	10	100
2 to 3 feet	\$.85	\$7.50	\$70.00

WINGED EUONYMUS

(Euonymus alatus)

THE chief glory of this big shrub appears in the fall when the leaves turn to very brilliant hues of pink, scarlet and crimson, giving the tree the name of Burning Bush.

Very showy against evergreens. Pretty twigs in winter, with wing-like corky ridges on bark give the name Cork Tree. Inconspicuous white flowers in the spring. A tall grower of spreading habit.

Height	Each	10
3 to 4 feet	\$1.50	\$12.50
2 to 3 feet	1.25	10.00

WEEPING FORSYTHIA

(Forsythia suspensa)

THE gracefully drooping branches are covered with glorious golden yellow flowers in April or May. Forms a large wide-spreading bush. The arching branches completely hide the ground. Excellent for massing on slopes or for thick screens.

Height	Each	10	100
3 to 4 feet	\$.60	\$5.00	\$40.00
2 to 3 feet	.50	4.00	35.00

FORTUNE FORSYTHIA

(Forsythia suspensa fortunei)

THE favorite Forsythia, erect, shapely, and of medium height. Blossoms before the leaves appear. A mass of rich yellow flowers. Lovely against dark evergreens. *Illustrated at left.*

Height	Each	10	100
3 to 4 feet	\$.60	\$5.00	\$40.00
2 to 3 feet	.50	4.00	35.00

Witch Hazel

4 to 5 feet
\$90 each

WITCH HAZEL

(Hamamelis virginiana)

PRIZED for its late flowering. Blooms in November. After the leaves have dropped, Witch Hazel unfolds its dainty clusters of long, narrow, yellow petals. A tall shrub for shady place or border.

Height	Each	10
4 to 5 feet	\$.90	\$8.00

SNOWHILL HYDRANGEA

(Hydrangea arborescens grandiflora)

LARGE beads of pure white flowers in July and August. Hardy Dwarf habit. Each spring for blossoms are

heavy flowering, as all borne on new growth.

Height	Each	10	100
3 to 4 feet	\$1.00	\$8.50	
2 to 3 feet	.75	6.50	\$60.00
18 to 24 inches	.60	5.00	45.00

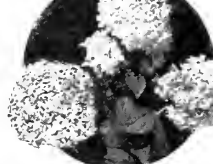

PANICLE HYDRANGEA

(Hydrangea paniculata)

THE parent form of the well-known Peegee Hydrangea. More graceful and erect, but has smaller and less showy blossoms. Preferred by many.

Height	Each	10
4 to 5 feet	\$.75	\$6.00
3 to 4 feet	.60	5.00

PEEGEE HYDRANGEA

(Hydrangea paniculata grandiflora)

THE most popular Hydrangea. 1 m m e n s e heads of showy white flowers in midsummer, changing to

pink, red, and purple in the fall. A large stout bush. Should be pruned each spring for heavy flowering.

Height	Each	10	100
3 to 4 feet	\$1.00	\$9.00	\$80.00
2 to 3 feet	.85	7.50	70.00

TREE FORM OF ABOVE

Height	Each	10
3 to 4 feet	\$1.50	\$14.00

GOLDEN ST. JOHNSWORT

(Hypericum densiflorum)

UNIQUE and striking low-growing shrub with bright yellow blossoms during the summer. Desirable for its brilliant color and late blooming. Does well in somewhat shaded places, and is lovely in combination with the lilac flowers of the Butterflybush.

Height	Each	10	100
2 to 3 feet	\$.75	\$6.00	\$50.00

WINTERBERRY

(Ilex verticillata)

MUCH loved because of the beautiful bright red berries which freely decorate the whole bush in autumn and early winter. A species of Holly often called Black Alder. A native shrub found along brook and pond shore, or on the edge of woodlands. Good alike in moist shade or well-drained sunny positions.

Height	Each	10	100
3 to 4 feet	\$1.00	\$9.00	
2 to 3 feet	.75	6.00	\$55.00
18 to 24 inches	.60	5.00	45.00

KERRIA

(Kerria japonica)

A PRETTY low-growing shrub, dotted with charming yellow flowers in June. The foliage is of delicate texture and prettily veined. Bright green stems all winter. Contrasts well with

Red Osier or Goldenwig Dogwood.

Height	Each	10	100
2 to 3 feet	\$1.00	\$9.00	\$80.00
18 to 24 inches	.75	6.50	60.00

AMUR PRIVET

(Ligustrum amurense)

A FAST-GROWING, perfectly hardy shrub with clean fine foliage. Very fine for hedges and screens in sun or shade.

Height	Each	10	100
4 to 5 feet	\$.75	\$6.00	\$50.00
3 to 4 feet	.60	5.00	40.00
2 to 3 feet	.40	2.50	18.00

IBOTA PRIVET

(Ligustrum ibota)

OF tall slender graceful habit. Many small, fragrant, white flowers in summer are followed by decorative blue berries.

See hedge illustration on page 10.

Height	Each	10	100
4 to 5 feet	\$.60	\$5.00	\$40.00
3 to 4 feet	.50	4.00	30.00
2 to 3 feet	.40	3.00	20.00

Summer-Fall Group

Offer S-86 \$5.75

Regular Price \$6.70

10 shrubs, one each of following hardy varieties:

1 Pride of Rochester Deutzia	5 to 6 feet

Little-Tree Perennials

NEVER more popular than today, perennials, with their wealth of color, and sequence of bloom, are the joy of every garden.

Little-Tree two-year-old, field-grown plants are sure to please you.

Achillea ptarmica

THE PEARL

Profuse double flowers of pure white borne in dense heads. Good foliage on strong stems and free graceful habit of growth. Splendid for cut flowers and for borders. Frequently used in cemeteries and rock gardens. Blooms all summer. 1½ feet.

Each \$.30 10-\$2.50 100-\$17.00

Aconitum autumnale

AUTUMN MONKSHOOD

One of the finest fall blooming plants. The large spikes of dark blue flowers in September and October are very effective. 3 to 6 feet tall. Beautiful with shrubs and in borders in either sun or shade. Excellent for cutting.

Each \$.50 10-\$4.50 100-\$27.00

Aconitum autumnale fischeri

AZURE MONKSHOOD

Similar to Autumn Monkshood, but lower growing, with darker blue flowers. Very handsome.

Each \$.50 10-\$4.50 100-\$27.00

Althaea rosea

HOLLYHOCK

This old garden favorite is much admired for its tall stalks richly covered with large, single flowers in July and August. A stately perennial for the garden background. One of the best for midsummer bloom. Great variety of colors.

Each \$.30 10-\$2.50 100-\$15.00

Althaea rosea

DOUBLE HOLLYHOCK

The full double form, with showy blooms of good substance and wide range of color. This is a dependable favorite, particularly useful to hide unsightly places or for the background of the border. 5 to 8 feet high. Blooms in July and August.

Each \$.30 10-\$2.50 100-\$15.00

Alyssum saxatile

DWARF GOLDENTUFT

The very large compact masses of golden flowers are among the first to appear in spring. Grayish green leaves. One of the best perennials for rock gardens. Easy to grow and very free flowering. Likes a dry, sunny position.

Each \$.30 10-\$2.50 100-\$18.00

Anchusa italica

DROPMORE BUGLOSS

A tall mass of exquisite forget-me-not-like flowers in June. Cut off faded flowers. Treat as a biennial. 3 to 4 feet.

Each \$.30 10-\$2.50 100-\$20.00

Anemone japonica alba

JAPANESE ANEMONE

Pure white flowers with yellow centers. An exquisite variety for the fall garden. Grows well in partial shade. 2 to 3 feet. Cover in winter.

Each \$.35 10-\$2.50 100-\$20.00

Anemone jap.

QUEEN CHARLOTTE

CHARLOTTE ANEMONE

A semi-double, exquisite pink form of Japanese Anemone. Abundant flowers, broad and perfectly formed. A strong grower. Excellent for cutting. Blooms August to October.

Each \$.35 10-\$3.00 100-\$22.50

Aquilegia caerulea

COLORADO COLUMBINE

Known as Rocky Mountain Columbine. Blue and white flowers in May and June. 2 feet tall.

Each \$.35 10-\$2.50 100-\$18.00

Aquilegia chrysantha

GOLDEN COLUMBINE

Fragrant yellow flowers, June to August. For border or rock garden. Does well in sunshine or partial shade.

Each \$.35 10-\$2.50 100-\$18.00

Aquilegia hybrids

LONG SPURRED COLUMBINE

Larger flowers with long spreading spurs in a variety of colors. Blooms for two months.

Each \$.35 10-\$2.50 100-\$18.00

Arabis alpina

WALLCRESS

Fragrant masses of white flowers in early spring. For rock garden or for edging. 6 inches.

Each \$.35 10-\$2.50 100-\$18.00

Arenaria montana

MOUNTAIN SANDWORT

A mat of moss-like emerald foliage, covered in June with tiny white flowers. Excellent for walls and rock gardens.

Each \$.35 10-\$2.50 100-\$18.00

Asclepias tuberosa

BUTTERFLYWEED

Remarkably showy orange-red flowers, July and August. Extremely effective used in masses. 2 to 3 feet.

Each \$.35 10-\$3.00 100-\$21.00

Aster alpinus

DWARF ALPINE ASTER

Violet-blue flowers, in May and June, on six-inch stems, from close rosettes of gray green foliage. Very fine and showy for rock gardens or borders.

Each \$.30 10-\$2.50 100-\$20.00

Aster climax

LARGE BRIGHT BLUE ASTER

The extra large flowers of exquisite bright blue are borne in profusion from August to October. Grows 3 to 4 feet. Beautiful in borders and fine for cutting.

Each \$.35 10-\$2.50 100-\$20.00

\$10.00 or more.

Aster

novae-angliae

NEW ENGLAND ASTER

Bears large heads of royal purple flowers on 4 to 5 foot stems in September. Good for back-grounds and for bright color masses in shrubbery.

Each \$.30 10-\$2.00 100-\$15.00

Aster novae-angliae roseus

ROSY NEW ENGLAND ASTER

Large rosy pink flowers similar to the above. A beautiful plant for fall color.

Each \$.40 10-\$3.50 100-\$30.00

Astilbe Queen Alexandra

QUEEN ALEXANDRA ASTILBE

This erect, deep pink flower, soft and feathery, appears during June and July and is very effective in borders. Grows to 2 feet.

Each \$.50 10-\$4.50 100-\$40.00

Boltonia asteroides

WHITE BOLTONIA

Hardy, showy plants with large, single, aster-like flowers borne profusely from August to October. Fine for back-grounds. 5 to 6 feet tall.

Each \$.30 10-\$2.50 100-\$15.00

Boltonia latisquama

VIOLET BOLTONIA

Similar to the White Boltonia, but has handsome lilac-purple flowers.

Each \$.30 10-\$2.50 100-\$15.00

Campanula carpatica

CARPATHIAN BELLFLOWER

The bellflowers are old favorites and every garden should have them. This variety has large blooms of deep blue produced from June to October. Very compact and low growing. Excellent for rock gardens and edgings.

Each \$.35 10-\$2.50 100-\$18.00

Campanula carpatica alba

WHITE BELLFLOWER

Like the Carpathian Bellflower except that the flowers are white.

Each \$.35 10-\$2.50 100-\$18.00

Campanula persicifolia

PEACHLEAF BELLFLOWER

The large shallow bell-shaped flowers are a handsome purple-blue. A most attractive plant of graceful habit which comes in June. Very desirable for garden or border in sun or partial shade. Grows to 3 feet. Fine for cutting.

Each \$.35 10-\$2.50 100-\$18.00

Campanula persicifolia alba

WHITE PEACHLEAF BELLFLOWER

Same as Peachleaf Bellflower except that it has white flowers.

Each \$.35 10-\$2.50 100-\$18.00

Cassia marilandica

WILD SENNA

Produces clusters of yellow pea-shaped flowers with black centers in June and July. Very smooth, handsome foliage. Grows 3 to 4 feet tall.

Each \$.35 10-\$2.50 100-\$20.00

Centaurea

dealbata

PERSIAN CENTAUREA

Large, striking, rose-pink flowers appear from June to August. It grows 18 to 24 inches tall and is very compact. Birds are fond of the seeds. Attractive through the season.

Each \$.35 10-\$2.50 100-\$18.00

Cerastium arvense

STARRY CERASTIUM

Like Snow-in-Summer but earlier, and has smaller flowers. Gray-green foliage.

Each \$.35 10-\$2.50 100-\$18.00

Cerastium tomentosum

SNOW-IN-SUMMER

Attractive silvery foliage and many starry white blossoms in June. Good ground cover for rockeries or steep banks.

Each \$.30 10-\$2.50 100-\$18.00

Cerastostigma plumaginoides

LARPENTE PLUMBAGO

Masses of dark green foliage with deep blue flowers until frost. For border or rockery. 10 to 12 inches.

Each \$.40 10-\$3.50 100-\$25.00

Chrysanthemums

HARDY CHRYSANTHEMUM

The glory of the autumn garden, filling it with colorful bloom through October. The varieties listed below are perfectly hardy if planted in well-drained soils. After they are done flowering cut the ground and cover with leaves. Plants for spring shipment are from pots.

Boston. Small bronzy-orange blossoms on tall branched stems.

Bronze Button. An extremely free flowering bronze variety—an old-fashioned favorite.

Large Flowering Yellow. Similar to the old-fashioned red but the color is fine clear yellow.

Eva. Dwarf variety. Large deep pink.

Glory of Seven Oaks. Early. Canary yellow.

Dwarf. Best yellow.

Large Flowering Red. Old-fashioned variety. Extremely hardy. Blooms in November.

Mrs. Francis Bergen. One of the finest. Creamy white with bright pink center.

Oconto. Pure white. Large.

Roupe Beauty. Single red. Large.

Ruth. Bright red. Very showy.

Each \$.35 10-\$2.40 100-\$18.00

Chrysanthemum

maximum

SHASTA DAISY

Large, pure-white, daisy-like flowers in early summer.

Hardy. Fine for cutting. Grows in sun or partial shade. 2 to 2½ feet.

Each \$.35 10-\$2.50 100-\$17.00

Our prices include packing and are f. o. b. Framingham.

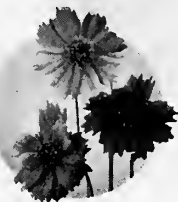

Convallaria majalis
LILY-OF-THE-VALLEY

Everybody knows and wants this delightfully fragrant little favorite. Its delicate white, bell-shaped flowers appear in May and June. About 8 inches high. One of the best plants for shady spots and for a ground cover under trees. Spreads by underground runners. We offer well-established clumps.

Each \$.50 10-\$4.50 100-\$40.00

Coreopsis grandiflora
BIG COREOPSIS

Golden yellow flowers borne on long graceful stems. Blooms very freely from June until late fall if not allowed to seed. Vigorous grower. 2 feet. Invaluable for cut flowers because of its lasting qualities. Charming in the border.

Each \$.30 10-\$2.20 100-\$15.00

Cynanchum acuminatifolium
MOSQUITO-TRAP

This very interesting small plant has lasting foliage and pure white waxy flowers that appear in May and June. Very unusual and desirable for garden and border. Grows 18 inches.

Each \$.35 10-\$2.50 100-\$18.00

Delphinium
LARKSPUR

One of the most beautiful of all hardy plants and indispensable in every garden. The many varieties make possible continuous bloom throughout the summer.

Colors range from light blue to dark blue and purple. The handsome spikes of flowers come in June and July and, if not allowed to seed, plants will bear a second or third crop of blossoms until late fall.

This favorite is suitable for borders and gardens of all kinds. Good for cutting.

Delphinium formosum
BLUE LARKSPUR

The parent of the family and one of the finest. Brilliant dark blue flowers with white centers. Blooms all summer. Grows 3 to 4 feet.

Each \$.35 10-\$2.50 100-\$18.00

Delphinium belladonna
LIGHT BLUE LARKSPUR

An exquisite sky-blue form of the type. Extra fine for cutting.

Each \$.35 10-\$2.50 100-\$18.00

Delphinium Gold Medal Hybrids

LARKSPUR

Double and single blossoms varying from palest sky-blue tints to deep indigos and purples, with intervening shades of mauve and lavender. 3 to 6 feet tall.

Each \$.35 10-\$2.50 100-\$18.00

Delphinium grandiflorum chinense
SLENDER LARKSPUR

This very hardy species from Siberia is the little sister of the family. Foliage finely divided. Flowers of intense blue borne lightly on slender stems. Blooms all summer. Exquisite for cutting. Grows 12 to 18 inches.

Each \$.35 10-\$2.50 100-\$18.00

Delphinium grand. chinense alba
WHITE SIBERIAN LARKSPUR

Similar to Slender Larkspur except that it is white and somewhat more robust in habit.

Each \$.35 10-\$2.50 100-\$18.00

Dianthus barbatus
SWEET WILLIAM

A quaint old-fashioned posy from grandmother's garden. One foot tall. Produces in early summer great masses of bloom of extremely rich color varying from white or pink to deep crimson.

A favorite cut flower, in masses where it will seed itself, as the old plants die off.

Each \$.30 10-\$2.20 100-\$15.00

Dianthus deltoides
MAIDEN PINK

Myriads of miniature, bright pink flowers spring from rosettes of narrow, threadlike leaves in May and June and again more sparingly in autumn. An exceptionally fine rock plant, forming a low spreading mass of slender foliage. Good for the foreground. 6 inches.

Each \$.30 10-\$2.20 100-\$15.00

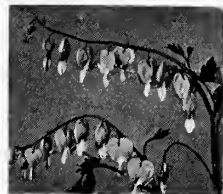

Dianthus plumarius
GRASS PINK

This old-fashioned favorite has handsome blue foliage which forms pretty tufts of distinct color tone. In May and June there are many spicy, deliciously fragrant flowers, ranging from pink and white to red, on graceful stems. 9 to 12 inches high. Delightful for edging the border, for rockery, walls or terraces.

Each \$.30 10-\$2.20 100-\$15.00

Dicentra spectabilis
BLEEDING HEART

Another much loved flower from grandmother's garden. The flowers, pink hearts hanging in a row on slender arching stems, spring from 2-foot clusters of fern-like foliage. Exquisite for cutting and lasts well.

Each \$.75 10-\$7.00 100-\$65.00

Digitalis ambigua
YELLOW FOXGLOVE

Foxgloves are among the most beautiful and stately of old-fashioned flowers. This variety has 2 to 3 foot spikes of light yellow bell-shaped flowers. Blooms in July and frequently again in autumn. The handsome clusters of foliage keep their lively green color until after the snow flies.

Each \$.35 10-\$2.50 100-\$18.00

Digitalis purpurea
FOXGLOVE

Tall spikes of bell-shaped flowers ranging from pink to purple are borne in July and August. Grows 2 to 3 feet tall. Deservedly a favorite for garden or border. Stands partial shade well.

Each \$.35 10-\$2.50 100-\$18.00

Euphorbia cyathifera
CYPRESS SPURGE

A very fine rock garden plant growing 6 to 8 inches high and making little formal clumps almost like miniature evergreens. It has narrow gray-green leaves which in autumn turn the most wonderful shades of pink and orange. Very desirable.

Each \$.35 10-\$2.50 100-\$20.00

Filipendula hexapetala
DROPWORT

Flowers, like beautiful, heavy, white plumes, grow well above graceful, fern-like foliage. 12 to 18 inches high. Excellent for border or rock garden. Splendid for cut flowers.

Each \$.35 10-\$2.50 100-\$18.00

Gaillardia aristata
PERENNIAL GAILLARDIA

Handsome dark-red flowers, like big daisies, with dark brown centers ringed with orange and crimson. Grows 2 feet tall. Blooms June to November. One of the best for cutting.

Each \$.30 10-\$2.50 100-\$17.00

Geum atrosanguineum
DOUBLE CRIMSON AVENS

A dwarf plant with deep scarlet flowers from June to September. Most useful for mass planting, borders and rock gardens.

Each \$.35 10-\$2.50 100-\$18.00

Gypsophila paniculata
BABYSBREATH

The name implies the extreme delicacy and daintiness of this flower. Loose panicles of tiny white flowers like a fine mist are borne in profusion during July and August. Grows in dry places and poor soils.

Each \$.35 10-\$2.50 100-\$18.00

Helenium autumnale
SNEEZEWEED

A homely name for a gay, decorative flower. Golden yellow flowers from late August to October. 4 to 6 feet tall. Stands partial shade. Beautiful with shrubs or in background.

Each \$.35 10-\$2.50 100-\$18.00

Helenium Riverton Gem
RIVERTON GEM SNEEZEWEED

A jewel—as the name implies. Rich copper bronze. Flowers August to November.

Each \$.35 10-\$2.50 100-\$17.00

Helianthemum chamaecistus
SUNROSE

A low-growing evergreen forming broad clumps covered by masses of salmon-pink blooms from July to September.

Each \$.30 10-\$3.00 100-\$20.00

Helianthus Miss Mellish
MISS MELLISH SUNFLOWER

A perennial sunflower, 3 to 5 feet tall. Bears rich yellow flowers with brown centers all summer.

Each \$.30 10-\$2.50 100-\$18.00

Hemerocallis dumortieri
EARLY DAYLILY

The earliest of the Daylilies. Bright orange flowers in May and June. 2 feet. Graceful, narrow foliage is decorative until late fall.

Each \$.35 10-\$2.50 100-\$18.00

Hemerocallis flava
LEMON DAYLILY

This stately yellow daylily on tall erect stems is very sweet scented. Makes a charming cut flower. Its long, narrow, arching leaves and exquisite golden-yellow flowers are showy in garden or border. Early summer.

Each \$.35 10-\$3.00 100-\$20.00

Hemerocallis thunbergi
JAPANESE DAYLILY

Much like the Lemon Daylily but flowers about a month later.

Each \$.35 10-\$2.50 100-\$20.00

Hesperis matronalis
DAMES ROCKET

Very sweet white or lavender flowers borne in showy spikes. Desirable in garden or border. May and June. Excellent for cutting.

Each \$.35 10-\$2.50 100-\$20.00

Heuchera sanguinea
CORALBELLS

One of the most charming perennials for the rock garden or border. Exquisite for cutting. The broad, rounded leaves are handsome and a striking foil for the slender, airy spikes of tiny gay coral blossoms. June to September.

Each \$.35 10-\$2.50 100-\$20.00

Hibiscus moscheutos
ROSEMALLOW

A showy, tall, shrubby plant with large clean leaves and many big flowers similar to Hollyhocks in August and September. Thrives in any good soil.

Pink Each \$.35 10-\$2.50 100-\$18.00
Red Each \$.50 10-4.00 100-35.00

Hosta lanceolata variegata
VARIEGATED PLANTAINLILY

The variegated green and white leaves are most attractive. Blue flowers in June and July. An especially handsome plant for edgings or formal planting. Good in shade.

Each \$.35 10-\$2.50 100-\$18.00

Iberis sempervirens
EVERGREEN CANDYTUFT

An indispensable rock garden perennial growing into wide mats of handsome evergreen. Clusters of pure white flowers in May.

Each \$.35 10-\$2.50 100-\$18.00

Kniphofia uvaria pfitzeriana
BONFIRE TORCHLILY

Often called "Red Hot Poker." A free and continuous bloomer from August to October. Spikes 3 to 4 feet tall with very conspicuous scarlet-orange blossoms. Most effective in the border or massed against shrubbery. Narrow sword-like foliage gives a rich tropical effect.

Each \$.50 10-\$4.00 100-\$30.00

Lavendula officinalis
TRUE LAVENDER

The fragrant silver-gray foliage was much prized by housewives of old who used it to scent their linen. The lavender-blue flowers are produced from July to September. 6 to 8 inches.

Each \$.40 10-\$3.50 100-\$25.00

Liatris pycnostachya
CATTAIL GAYFEATHER

Great rocket-like spikes of pale rosy-purple flowers from August to October. Very striking massed in the border or background. Grows 3 to 5 feet tall. Attractive to butterflies. Pretty narrow foliage.

Each \$.35 10-\$2.50 100-\$18.00

Lobelia cardinalis
CARDINAL FLOWER

One of the most beautiful of all crimson flowers. While a native of wet places, its 2 to 3 foot spikes develop equally well in the garden and bring flaming beauty to dull corners. July and August.

Each \$.35 10-\$2.50 100-\$18.00

Lupinus polyphyllus
WASHINGTON LUPINE

Beautiful long spikes of pea-shaped deep blue flowers on 3 foot stems. Most effective in borders or in masses along ponds and streams. Excellent for cutting. Grows well in partial shade. May and June.

Each \$.35 100-\$18.00 10-\$2.50

Lupinus polyphyllus roseus
BLUSH LUPINE

Like Washington Lupine, with rosy pink flowers on tall spikes in May and June. Indispensable for border or garden. Lupines are perfectly hardy and increase in beauty from year to year.

Each \$.35 10-\$2.50 100-\$18.00

Lychnis chalcidonica
MALTESE CROSS

Often called Jerusalem Cross or Scarlet Lighting. One of the most brilliant old-fashioned perennials. Large flat heads of vivid scarlet flowers, borne on stems 2 to 3 feet tall, last from June to August. A glowing color against green backgrounds. Good for cutting.

Each \$.35 10-\$2.50 100-\$18.00

Lychnis viscaria splendens
DOUBLE ROSE PINK CAMPION

Forms a dense tuft of neat evergreen foliage bearing handsome spikes thickly covered with fragrant double red flowers in June and July. A superlatively beautiful plant for hardy gardens, borders and rock gardens. Easily grown and very showy when planted in masses. Grows 8 to 10 inches.

Each \$.35 10-\$2.50 100-\$18.00

Monarda didyma
OSWEGO BEEBALM

A very striking plant with bright red flowers in midsummer. Naturalizes well along streams and at the edge of woods. Our low price makes it possible to use this plant freely.

Each \$.30 10-\$2.50 100-\$15.00

Nepeta mussini
CATNIP

From the Caucasian Mountains. Closely akin to our Catnip. An elegant member of a plain family. In May the 6-inch spikes of lavender-blue flowers thickly dot the broad mass of gray-green foliage. Desirable for borders and rock gardens.

Each \$.35 10-\$2.50 100-\$18.00

Oenothera fruticosa youngii
YOUNG'S SUNDROPS

One of the favorite Primroses. Rich golden yellow flowers are freely produced from June to September. A strong, pretty-leaved perennial. Grows about 2 feet.

Each \$.35 10-\$2.50 100-\$20.00

Papaver orientalis
ORIENTAL POPPY

Bold plants of striking appearance and vivid coloring, surpassing in splendor all other poppies. The deep cut, hairy foliage is exceptionally handsome and forms a fitting base for the 1 to 2 foot flower stems each topped with conspicuous large flowers in May or June. Easy to grow but should be planted from late August to October before roots are formed. We offer two of the finest varieties.

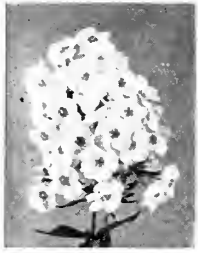

Mrs. Perry—Bears an immense satiny flower of salmon-pink, tinted orange-apricot and splashed with black at the base.
Each \$.40 10-\$3.50 100-\$30.00

Royal Scarlet—Rich blazing scarlet with black markings in center.
Each \$.30 10-\$2.50 100-\$20.00

Phlox STANDARD PHLOX

Very beautiful, hardy perennial of easiest culture. Phlox are among the most effective plants for the late summer and fall garden. Great variety in color and a wealth of bloom from July till late October is offered in the list below. They require plenty of water during the blooming period. Divide clumps every few years.

Annie Cook
Bright satiny pink. Extra large flowers. Early to midseason.

Antonin Mercie
Very large flowers. White center bordered lilac. Early.

Beacon
Brilliant cherry red. Midseason to late.

Coquelicot
Brilliant scarlet. Midseason.

Czarina
Large heads of pearly white flowers. Late. Extra choice and desirable.

Eclairer
Large amaranth-red flowers, deep eye with lighter halo. Early.

Elizabeth Campbell
Scarce. Large salmon-pink flowers. Dark red eye. Midseason.

L'Esperance
Pale lavender marked with a white eye. Midseason to late.

Miss Lingard
Conical heads of white flowers with pinkish centers. Earliest of all. Glossy foliage. Very fine.

Richard Wallace
White, violet eye. Midseason to late.

Stella's Choice
Rightly named "Choice." Large milk flowers in glowing clusters flushed with rosy lavender on the underside. Late. Does well in both sun and partial shade.
Each \$.35 10-\$2.50 100-\$20.00

DWARF PHLOX

Indispensable in the rock garden; for naturalistic plantings, on banks and for edgings. Strong field-grown plants. They furnish a sheet of color in early spring.

Phlox Amoena

AMEONA PHLOX

When spring comes the tidy rosettes of green leaves throw up dense heads of bright pink flowers on erect stems 6 to 8 inches.

Each \$.30 10-\$2.50 100-\$18.00

Phlox divaricata BLUE PHLOX

April and May sees this beauty in full glory. No blue in the spring garden compares with it. At home in sun or partial shade. 8 to 12 inches.

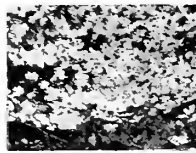

Each \$.30 10-\$2.50 100-\$18.00

Phlox subulata MOSS PHLOX

The trailing stems lie close to the ground, and in April and May bear great sheets of flowers. Fine for the rock garden or for covering slopes. Lavender—a lovely soft shade. Pink—for accent and contrast. White—lovely—dainty and exquisite. Specify color wanted.

Each \$.25 10-\$2.00 100-\$15.00

For Phlox Offers see page 13

Primula moerheim hybrids HARDY PRIMROSE

A new and unusual strain. Very hardy. Assorted colors. Especially good in the moister parts of rock gardens.

Each \$.50 10-\$4.50 100-\$40.00

Pyrethrum roseum hybrids PERSIAN OR PAINTED DAISY

The blossoms vary from white or rose to deep red, single and double. Perfectly hardy and invaluable for cut flowers through May and June. 2 to 3 feet tall. Thrives in sun or partial shade.

Each \$.35 10-\$2.50 100-\$18.00

Salvia azurea grandiflora GREAT AZURE SAGE

Produces many 3 to 4 foot branched stems with heavy long spikes of almost sky-blue flowers in May and June.

Each \$.35 10-\$2.50 100-\$18.00

Sedum

STONECROP

The Sedums are admirable succulent rock garden plants which form low mats. Very hardy and tolerant of exposed situations and poor soils. We offer three of the best varieties:

Sedum acre

GOLDMOSS

The name is indicative of its appearance when in bloom. Bright green foliage about 4 inches high and sheets of yellow blossoms in June and July.

Each \$.30 10-\$2.20 100-\$15.00

Sedum lydium

LYDIAN STONECROP

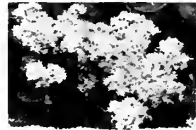

Like Goldmoss except that the flowers are pinkish white and some stems and foliage red.

Each \$.30 10-\$2.50 100-\$18.00

Sedum spectabile SHOWY STONECROP

An upright member of the Sedum group. About a foot tall. The stems bear numerous gray-green leaves and are topped by large flower heads of brightest rose in August.

Each \$.30 10-\$2.50 100-\$18.00

Sempervivum tectorum ROOF HOUSELEEK

A most curious and unusual plant which should be in every rock garden. Its chief beauty is in the flat rosettes of thick evergreen leaves tipped with reddish brown. Flowers are pale red, borne on stems a foot tall in June. Thrives in cracks, crevices and dry soil.

Each \$.35 10-\$2.50 100-\$18.00

Statice armeria THRIFT

Another dwarf perennial forming thick evergreen tufts of pretty narrow leaves. Very neat and attractive for edging the garden, border or for the rock garden. Pink flowers in profusion during May and June. Very showy and desirable.

Each \$.30 10-\$2.50 100-\$18.00

Stokesia laevis STOKESIA

Often called Cornflower Aster. One of the most charming hardy native plants. Grows 18 to 24 inches tall, bearing freely from early June until late October handsome lavender-blue flowers (measuring from 3 to 5 inches across). Easy to grow in any open sunny position. Lovely for picking. Desirable as a single plant for the border or for massing.

Each \$.35 10-\$2.50 100-\$18.00

Thalictrum minus andiantifolium MAIDENHAIR MEADOWRUE

The graceful foliage resembling Maidenhair Fern is beautiful until November. Delicate little yellow-white flowers are borne in June. A pretty plant of medium height for the rock garden or border. Endures shade. Grows one foot.

Each \$.40 10-\$3.50 100-\$25.00

Thymus serpyllum coccineus CRIMSON THYME

Tiny dark-green fragrant leaves which form a low creeping mat on the ground. Red flowers in June and July. Valuable for rockeries and planting between stones or steps.

Each \$.50 10-\$4.00 100-\$35.00

Thymus s. lanuginosus WOOLLY THYME

Like Crimson Thyme but has silver-gray foliage and rose-colored flowers. Unique among rock garden plants in graceful manner of hanging over and veiling stones. Indispensable in rock gardens. Plant Armeria near for contrast.

Each \$.35 10-\$2.50 100-\$20.00

Tradescantia virginiana VIRGINIA SPIDERWORT

This old garden favorite blossoms allsummer. Violet-blue flowers. An all-purpose plant with graceful and lasting foliage. It is good in shade and in ordinary soils.

Each \$.30 10-\$2.50 100-\$18.00

Trollius europaeus GLOBEFLOWER

Many blossoms like big yellow buttercups, an inch across in May and sometimes again in August and September. Rosettes of handsome, deeply cut leaves. 12 to 18 inches.

Each \$.75 10-\$6.00 100-\$50.00

Tunica saxifraga SAXIFRAGE TUNICFLOWER

Dainty and graceful plant for rock garden or border. Fine wiry leaves on slender stems dotted with numerous tiny pink flowers all summer and fall. Grows 6 inches.

Each \$.30 10-\$2.50 100-\$15.00

Valeriana officinalis VALERIAN

Otherwise known as Hardy Garden Heliotrope. The fragrant showy pinkish-lavender flowers come in June. Grows 3 to 4 feet.

Each \$.35 10-\$2.50 100-\$18.00

Veronica incana WOOLLY SPEEDWELL

Numerous violet flowers and gray foliage in June and July. Useful for borders and rock gardens.

Each \$.35 10-\$2.50 100-\$18.00

Veronica longifolia subsessilis CLUMP SPEEDWELL

Spikes of brilliant deep blue flowers are produced freely in July. Good for cutting. Grows 2 feet.

Each \$.35 10-\$3.00 100-\$25.00

Veronica spicata SPIKE SPEEDWELL

Similar to Clump Speedwell but of smaller habit, more graceful and better foliaged. Long spikes of soft violet-blue flowers in June and July. A fine subject for the garden border. 18 inches.

Each \$.30 10-\$2.50 100-\$18.00

Viola cornuta TUFTED PANSY

Like small pansies. Blooms very freely in early spring and if cut back in midsummer will bloom on into November.

Each \$.40 10-\$3.00 100-\$25.00

Little-Tree Iris & Peonies

No Garden is Complete
without Them

IRIS

Iris, the "Lilies" of France and the "Flags" of our grandmothers, are among the most satisfactory of garden plants. Very floriferous and with a wide range of colors, they combine especially well with Peonies in long beds or borders along fences, walls or pathways. They require little care and multiply rapidly. Divide and transplant every 3 or 4 years.

In addition to the many fine German Iris a few choice Japanese and Siberian varieties are listed, which should be planted freely for a long Iris season.

GERMAN IRIS

"S"—standards or upright petals;
"F"—falls or drooping petals.

Name	Each	10
A. E. Kundred	\$35	\$3.00
S, yellow bronze, magenta tinged; F, magenta, bronze tinged.		
Alcazar	\$35	\$3.00
An Iris aristocrat. S, light violet; F, deep purple with bronze veined throat. Large flowers. Sturdy growth.		
Anna Farr	\$50	\$4.50
S, white, bordered pale blue; F, pure white, blue marked at base. Large, sweet scented flower.		
Archeveque	\$35	\$3.00
S, deep purple violet; F, rich deep velvety violet. Late flowering. Unusually beautiful flowers.		
Arnolds	\$35	\$3.00
S, rosy bronze; F, rich velvety purple.		
Aurea	\$30	\$2.50
Bears many large butter yellow flowers. Exquisite alone and especially fine with the almost sky-blue Pauline.		
Blue Boy	\$35	\$3.00
S and F, rich purple, bearded with blue. An early and prolific bloomer.		
Caprice	\$30	\$2.50
Rich glowing purplish red. A midseason flower of unusual and beautiful color.		
Flavescens	\$30	\$2.50
Pure sulphur yellow. Tall and a prolific bloomer. Sweet scented.		
Florentina	\$30	\$2.50
Creamy white, lavender flushed. Early. Fragrant. Excellent for cutting.		
Halddan	\$30	\$2.50
Semi-dwarf in stature with very large creamy white flowers early in season. Fine for the rock garden.		
Hector	\$25	\$2.00
S, soft yellow; F, velvety dark crimson. A very showy variety.		
Her Majesty	\$35	\$3.00
S, lovely rose pink; F, darker tinged crimson. Exceptionally beautiful.		
Hiawatha	\$50	\$4.50
S, pale lavender with rosy flush; F, royal purple bordered with lavender.		
Iris King	\$35	\$3.00
S, clear lemon yellow; F, rich maroon with yellow border. Very beautiful.		
Junata	\$35	\$3.00
Clear blue, fragrant flowers. The tallest of the Bearded Irises.		
Kochi	\$30	\$2.50
Rich claret purple. Early. Very handsome. Similar to Halddan in growth. Plant them together.		
Lohengrin	\$30	\$2.50
S, mauve; F, Chinese violet. Very large and a free bloomer. Exquisite.		

Name	Each	10
Loreley	\$25	\$2.00
S, light yellow; F, ultramarine blue bordered in cream. Medium height.		
Monsignor	\$35	\$3.00
S, rich glowing violet; F, veined royal purple and white. Large handsome bloom.		
Pauline	\$25	\$2.00
Almost a heavenly blue with falls of deeper shade. Plant with Aurea and Flavescens for color contrast.		
Perfection	\$35	\$3.00
S, light blue with deeper flecks; F, deep violet with orange beard. A lovely flower.		
Princess Beatrice	\$75	\$7.00
Very tall. Delicate lavender. Rated second best by American Iris Society.		
Princess Victoria Louise	\$30	\$2.50
S, sulphur yellow; F, rich plum with cream border.		
Rebecca	\$25	\$2.00
This is a saucy flower. Pert and snappy. Clear golden yellow with falls spotted and lined red brown. With a dark background or where the slant of setting sun can play upon its bright flowers this Iris is particularly effective.		
Rhein Nixe	\$30	\$2.50
An exquisite large bloom whose pure glistening white standards and violet-blue falls edged with white are in pleasing and strong contrast.		
Rose Unique	\$30	\$2.50
Early flowering. Bright violet-rose.		
Tamar	\$1.00	\$9.00
Reddish lilac with falls veined a deeper shade. Tall growing with enormous flowers. Showy and vigorous.		
White Knight	\$75	\$7.00
A beautiful, absolutely snow-white Iris of fine form. Fragrant.		
Wyomissing	\$30	\$2.50
S, creamy white suffused with soft rose; F, deep rose with paler border.		

JAPANESE IRIS

Name	Each	10
Blue Danube	\$60	\$5.00
Pure rich blue flowers with yellow center.		
Gold Bound	\$60	\$5.00
Large, pure white with yellow center.		

SIBERIAN IRIS

Name	Each	10
Blue King	\$35	\$3.00
Handsome, clear blue flowers on tall stems. Excellent for cutting. June.		
Snow Queen	\$35	\$3.00
Ivory white with orange markings on throat. Unusually beautiful. June.

1 Mme. Emile Galle	heliotrope
1 Sarah Bernhardt	mauve rose

PEONIES

Peonies are among the hardiest and most easily grown of the perennials. They will thrive and bloom for twenty years without disturbance, while most of the varieties last a long time when used as cut flowers.

We have selected some of the rarer varieties as well as the best of the well known and most loved varieties. The following list affords wide choice in color, type and season of bloom. Planting information may be found on order sheet in the back of this book.

Name	Each
Lafayette	\$1.50
Very large rose type. Exceptionally fragrant. An exquisitely beautiful violet-rose variety. Excellent for cutting. Midseason.	
Livingstone	\$1.00
Pale lilac-rose with center petals dotted with red. Large, compact and vigorous. A most desirable late Peony.	
Mme. Boulanger	\$1.00
The large full blossoms are unusually lasting. Soft lilac shaded rose and bordered with silver. Midseason.	
Mme. De Verneville	\$75
White, crimson touched flowers, plentiful and large. Very early. Bomb type.	
Mme. Emile Galle	\$1.00
Soft pink with heliotrope and lavender touches. A lovely variety. Late.	
Marie Stuart	\$75
Delicate lavender flecked with crimson. Crown type. A good variety. Early.	
Mons. Martin Cahuzac	\$2.50
The darkest Peony available commercially. Color deep purple-garnet. Flowers medium size. Early midseason.	
Philomele	\$75
Free blooming. Bright violet rose with golden yellow center. Carmine tipped. Midseason.	
Sarah Bernhardt	\$2.00
Semi-rose type. Huge flowers of mauve rose, silver tipped. A magnificent variety. Very fragrant. Late.	

Therese	\$4.00
Enormous size. Strong and floriferous. Rich violet-rose crimson splashed with lighter center. Midseason. One of the three greatest peonies.	
Venus	\$1.00
Crown type. Hydrangea pink. Fragrant. Unusually good flowers. Midseason.	
Virginie	\$75
Shell pink fading to flesh color. Free blooming and fragrant. Midseason.	

Order by name and number with remittance.

Little-Tree - Roses -

Rose Varieties are Legion. The lists below are the cream of the latest and most popular.

RUGOSA ROSES

Exceptionally hardy and vigorous, with thick, clean, shrublike foliage. Strong, field-grown, 18 to 30 inch plants.

\$.75 each; \$6.00 for 10; \$60.00 for 100
Except as noted.

Rosa Rugosa

Single red flowers. Thick green foliage and large orange-red seed pods. Thrives even under difficult seashore conditions.

Rosa Rugosa alba

Same as above except that flowers are white.

Conrad F. Meyer

A hybrid Rugosa. Fast grower. Large double, fragrant flowers of bright, silvery rose. **\$1.00 each. \$9.00 for 10.**

Rosa Hugonis

The golden rose of China. A charming, distinct shrub type, fine foliage, yellow flowers in May. 2-year plants. **\$1.50 each.**

Francis Scott Key \$1.00 each

Killarney \$1.00 each

Mme. Butterfly \$1.00 each

HYBRID TEAS "EVERBLOOMING"

Wonderful colors, sizes and forms have been created through hybridizing. Prune back to 2 or 3 buds on a branch each spring. All hardy, 2-year, field-grown plants.

Betty

Exquisite coppery-rose buds. Large buff-pink flowers. Splendid bloomer.

Columbia

Beautiful pink which deepens as blooms mature. Free flowering.

Duchess of Wellington

Large, tapering buds of intense saffron yellow—stained with deep crimson. Free flowering and fragrant.

Francis Scott Key

Rich crimson. Double blooms of large size.

General MacArthur

Large, full flowers, scarlet to crimson.

George C. Waud

Glowing vermilion flowers. Vigorous and healthy. Very dependable.

Gruss an Teplitz

Beautiful clear crimson flowers from June till frost. Fine garden rose.

Kaiserin Auguste Viktoria

Soft, pearly white, lemon tinged, fragrant.

Killarney

Lovely, long pointed buds opening into large, loose blooms of pink, tinted white.

Killarney White

A pure white sport of the Killarney.

Los Angeles

Pink, toned with coral and shaded with yellow. Free flowering. Very fragrant.

Mme. Butterfly

Exquisitely shaped. Pale pink, gold-tinted at base of petals. Delightfully perfumed.

Mme. Caroline Testout

Strong plant, with large satiny rose flowers.

Mme. Edouard Herriot

Coral red buds opening to large flowers of brilliant orange, red and salmon.

Ophelia

Large, full, perfect blooms—light salmon, shading to yellow. The best yellow variety.

Radiance

Brilliant carmine with salmon pink and yellow shadings at base of petals.

Red Radiance

Lovely, radiant red flowers. Very fragrant. Produces flowers freely all summer till frost.

Souvenir de Claudius Pernet

Long, pointed buds. Large, full flowers of deep yellow. One of the best yellow roses.

Sunburst

Long, lovely buds of sulphur yellow.

Little-Tree Climbing Roses and other vines

Climbing Roses

UNIVERSALLY loved, the climbing roses are most valuable for decorative purposes. They bloom profusely and may be trained over walls and fences, on posts, trellises, arbors, and porches. Suitable for use about the simplest home as well as on the more elaborate estate.

THE climbing roses offered here are strong 2-year field-grown plants, \$.75 each, \$6.00 for 10.

AMERICAN BEAUTY

ONE of the best climbing roses. Free blooming and a very vigorous grower. Rich rose pink. Good foliage.

AMERICAN PILLAR

A SINGLE flowering bloom of great beauty. Large blooms of brilliant pink with white eye and yellow stamens are borne in immense clusters.

DR. VAN FLEET

ONE of the finest climbers. Large pale pink flowers on long individual stems. Handsome glossy foliage. Ideal for cut flowers. Blooms in midseason.

DOROTHY PERKINS

PERHAPS the best loved climber. Clear shell pink, double flowers in lovely sprays. Blooms freely.

EXCELSA

SIMILAR to Dorothy Perkins but has profuse large clusters of brilliant crimson flowers. Late blooming and vigorous.

PAUL'S SCARLET CLIMBER

UNUSUALLY vivid scarlet, semi-double flowers produced freely in clusters. Strong and hardy. Flowers last well. Midseason.

PURITY

VERY hardy, with beautiful and profuse white flowers in long sprays. Excellent foliage and long blooming season.

Silver Moon

SILVER MOON

A VERY vigorous plant. Beautiful foliage. Pure white, semi-double blooms with yellow stamens. Midseason

Trellises and Arbors

ONE may have a "bower of beauty" at little cost. There are many well-made and attractive trellises at modest prices that are delightful covered with climbing roses or vines.

We offer many types at prices from \$1.75 up. Illustration and descriptions on pages 44 and 45.

WHITE DOROTHY PERKINS

CONSIDERED the best white climber. Identical with Dorothy Perkins except that the color is pure white.

YELLOW RAMBLER

Clusters of attractive yellow blossoms.

Virginia Creeper

VIRGINIA CREEPER

(*Lonicera japonica halleana*)

THE foliage of this vigorous, fast-growing vine is most attractive and the yellow-white flowers are deliciously fragrant.

Grade	Each	10	100
6 year	\$1.00	\$9.00	\$80.00
3 year	.50	4.00	

CHINESE MATRIMONY VINE

(*Lycium chinense*)

A VIGOROUS vine. Foliage large and bright green. Pale purple flowers are followed by showy orange and scarlet fruits.

Grade	Each	10
2 year	\$.50	\$4.50

CHINESE BLUE WISTERIA

(*Wisteria sinensis*)

THIS hardy long-lived vine is a favorite. Gorgeous clusters of purple-blue flowers.

Grade	Each	10
4 year	\$1.00	\$9.00

WHITE WISTERIA

(*Wisteria sinensis alba*)

VERY similar to Chinese Blue Wisteria, but has striking white flowers.

Grade	Each	10
4 year	\$1.00	\$9.00

Please order by name and number with remittance.
Our prices include packing and are f. o. b. Framingham.

For the finest lawns use Velvet-Lawn Mixture.

In the shaded places use Little-Tree Shady-Spot Mixture.

Little-Tree Grass Seed Mixtures

Insure a Splendid Lawn Almost Anywhere

LITTLE-TREE mixtures are the products of years of ripe experience and experimentation in the production of fine lawns for every purpose. Through scientific study of the various grasses from the standpoint of virility, smoothness, color, adaptability to

various soils and conditions, and precise blending we have achieved as perfect mixtures as human skill, knowledge and experience can make possible. We recommend them to you unreservedly—sure that you will obtain complete satisfaction. For lawn fertilizers see below.

LITTLE-TREE Velvet-Lawn Mixture

THOSE who want the very finest lawn that can be made will choose this mixture. The choicest varieties obtainable are blended and the result is a mixture that produces a surpassingly beautiful lawn of deep green, closely matted turf, unusually rich and velvety. No weeds, chaff, or inert matter in this seed.

1 lb. \$.75 5 lbs. \$3.50 10 lbs. \$6.50 25 lbs. \$15.00 100 lbs. \$55.00

When one considers the time and effort spent in grading and preparing the soil for a fine lawn, it is evident that a cheap mixture is a poor economy, and apt to prove most expensive in the end. The prices below are very reasonable for a mixture of highest quality.

Grading and lawn building is an art. Let our Landscape Service help you.
Our prices include packing and are f. o. b. Framingham.

LITTLE-TREE Shady-Spot Mixture

THE shady spot, where the grass looks sick and sparse, may have a charming velvety green carpet. Just use the right grass seed mixture—plump, vigorous seeds scientifically selected to give satisfactory results in fairly dense shade. In damp, shady spots where the soil sometimes

becomes sour, apply Little-Tree agricultural lime from time to time.

This is a "sure fire" mixture for all shady spots except in the deepest shade, as under evergreens, where no grass can possibly survive. This seed gives a beautiful lawn where cheaper mixtures fail.

1 lb. \$1.00 2 lbs. \$1.75 5 lbs. \$4.00 10 lbs. \$7.00 25 lbs. \$16.00 100 lbs. \$60.00

Valuable Plant Foods for Lawns, Trees and Shrubbery

Granulated Peat Moss

A SOIL conditioner, fertilizer, and mulch of the highest value. Clean and rich in humus. Better than manure in absorbing and retaining moisture, freedom from odor and weeds or fungus, and ease of application. It keeps a heavy, wet soil porous, and retains moisture in dry, sandy soil.

Ideal on all coniferous and broad-leaved evergreens. As a mulch 2 to 4 inches deep, it not only helps maintain the soil acidity which these plants require, but protects the shallow roots from heat and drought. We recommend it highly for this purpose and use it on all our sample beds and newly planted evergreens.

Peat Moss is also an excellent mulch for trees and shrubs as it keeps down weed growth and insures a neat, tidy-looking, healthy soil. Indispensable on window boxes and potted evergreens.

We offer fine quality imported moss, compressed in bales of approximately 150 pounds (varies with atmospheric conditions). One bale covers 240 square feet one inch deep.

Standard bale, each \$4.00
In quantities of 5 or more, each 3.50
Trial package, about 1/4 bale, each 1.50

Express or freight collect.

LITTLE-TREE Food for Trees

MADE for the trees on lawns, along streets and in parks or other situations where soil fertility is not maintained by natural methods. Proper feeding is one of the best methods of combating tree diseases. We use this fertilizer in professional work. Directions on each package. A large tree with 50 foot spread requires approximately 60 pounds.

10 lbs. \$1.00 50 lbs. \$3.50
25 lbs. 2.00 100 lbs. 5.00
1 ton \$90.00

Express or freight collect.

LITTLE-TREE "No Weeds" Lawn Fertilizer

SAVES labor and discourages the growth of common lawn weeds. The elements in it are toxic to dandelion, crab grass, plantain and the like but very beneficial to grass. Use this and best seed to make thick, velvety, dark-green lawns. Excellent for use on old lawns. Five pounds is sufficient for one application for 125 to 150 square feet.

5 lbs. \$.60 25 lbs. \$2.00
10 lbs. 1.00 100 lbs. 5.00
1 ton \$90.00

Express or freight collect.

Pulverized Sheep Manure

THIS highly concentrated fertilizer is light, dry, and easy to handle. An excellent fertilizer for lawns, cemeteries and wherever a luxuriant growth of grass is needed. Also good for evergreens, trees and shrubs.

25 lb. bag \$1.25 100 lb. bag \$3.50
50 lb. bag 2.50 1 ton 55.00

Express or freight collect.

Bone Meal

VERY finely ground bone, rich in fertilizing value. Especially good for lawns, shrub borders, perennial gardens, fruit trees and vines. Should be mixed thoroughly with soil—one pound to three cubic feet. As a top dressing use at rate of 1 pound to 25 square feet.

5 lbs. \$.60 100 lbs. \$5.00
10 lbs. 1.00 1 ton 65.00

Express or freight collect.

Stadler's Superior House Plant Food

CLEAN, odorless plant food. Use all year round and your plants will have new life and vigor. Fine for potted plants and cut flowers in water. Directions with package.

3 oz. size \$.25 Postage 5 cents
16 oz. size 1.00 Postage 15 cents

Armour's Lawn and Garden Grower

A PROPERLY balanced, concentrated plant food mixture blended from those chemical fertilizer elements best suited for the growing of grass. It is free from objectional odors and weed seeds, is easily applied and gives quick results. For old lawns use 20 to 30 pounds per 1,000 square feet. Packed in paper lined cotton bags.

5 lb. bag \$1.50 50 lb. bag \$3.00
25 lb. bag 1.75 100 lb. bag 5.00

Express or freight collect.

Agricultural Lime

GOOD for sweetening acid or sour soils. Caution: Do not use near coniferous Evergreens, Rhododendrons, Laurels, Azaleas, Blueberries or Strawberries. Apply at the rate of 1 ton to the acre or 100 lbs. for every two thousand square feet.

100 lbs. \$1.50 1 ton \$20.00

Express or freight collect.

Lawn mowers and lawn tools of many kinds are illustrated and described on page 48. Write us for descriptions and prices of power lawn mowers, electric and gasoline.

"Have a Heart"
Bird Feeding Shelter No. 63
(Illustrated above)

In common with all Little-Tree Bird Houses this attractive suet and grain holder was designed by men who know and love birds. The wire mesh in the back holds the suet. Winter or summer, the tree that boasts this feeding station will never lack a coterie of songsters. Makes a most acceptable and inexpensive Christmas gift. Fasten in a tree or on a cedar post. This is our most popular model. Well constructed of rustic cedar.

Price \$2.60 each Postage \$.25 2 for \$5.00

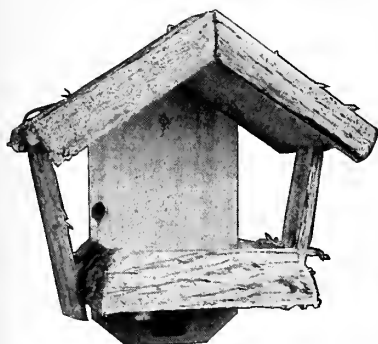

Little Tree Special
Bird House No. 50
(Illustrated above)

This rustic house is in complete harmony with natural surroundings and appeals strongly to feathered guests. If hung properly the house is safe from ravages of cats. Looks particularly well hung in a tree and will last for years. Can be furnished with large or small opening. Please indicate which you prefer.

Price \$1.75 each

Postage \$.25

EVERY bird lover should be delighted with the bird houses offered on this page. And as for the birds themselves, even the most captious feathered critics must fail to find fault with such artistic and comfortable apartments leased to them "For a song." Place these cunningly in your trees, shrubberies and under the eaves of outbuildings and you may rest assured no Little-Tree bird home will go tenantless.

Country Life Robin House No. 60
(Illustrated above)

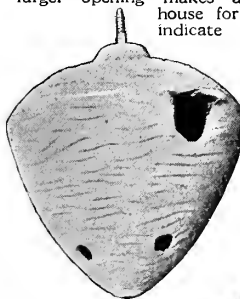

This rustic cedar bird house has the open-air effect which Mr. and Mrs. Robin Redbreast prefer. They will choose this for their new home if you will place it on a quiet side of the house well under the eaves or in a high crotch of an apple tree where cats cannot reach it.

Price \$1.75 each

Postage \$.25

Bee Hive Bird House No. R1
(Illustrated below)

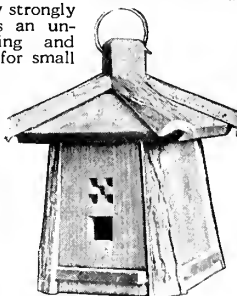

A strong, silvery gray, non-corrosive metal house which is practically indestructible. When made with a small opening wrens and other small birds choose this home as a refuge from sparrows. The same house with a larger opening makes a most acceptable house for bluebirds. Please indicate whether you wish large or small opening. This house has a screw which makes it easy to attach anywhere.

Price \$2.00 each
Postage \$.25

Country Life Wren House No. 61
(Illustrated below)

This charming wren house of rustic cedar is designed upon the lines of an old colonial lantern. It is very strongly built and makes an unusually interesting and attractive house for small birds. Durable and in complete harmony with natural surroundings. May be hung from a tree or attached to piazza or post.

Price \$1.75 each
Postage \$.25

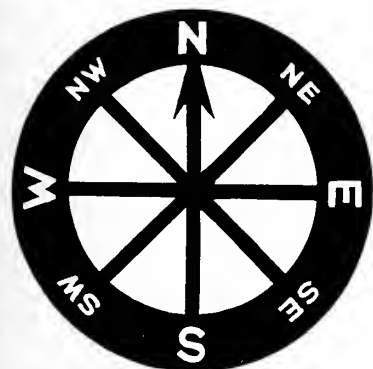

Country Life House No. 62
(Illustrated above)

The shyest and daintiest of feathered visitors, the bluebird, will find this a most acceptable habitation if it is placed in a quiet and sheltered garden spot with its door away from the wind and rain. This is another of the charming rustic cedar houses built to endure weather and to last for years.

Price \$1.75 each

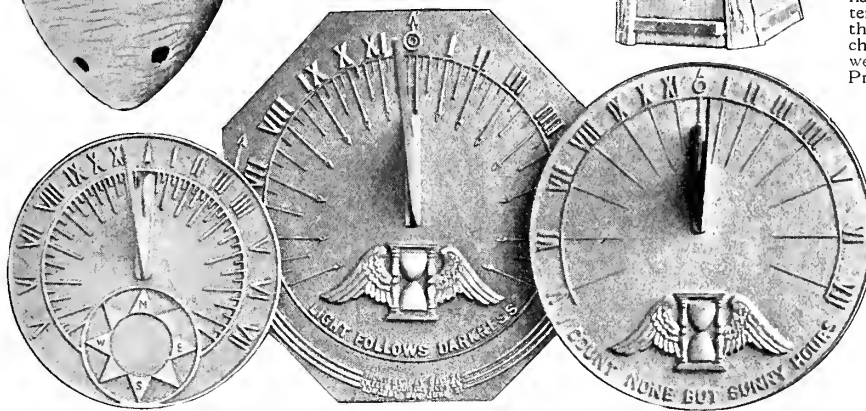

Postage \$.25

Compass Indicator No. 108
Made especially for floor of public buildings, yacht clubs, piazzas, etc. May be set in cement floors if desired. In ordering state whether to be set in wood or cement. Strongly made of U. S. Standard bronze.

Price \$12.00 each

Postage \$.25

Arch complete with gate	\$29.00
Arch only	20.00

Express or freight collect.

Arbor with Swing Seat No. 110

(Illustrated above)

This distinctly different piece of garden furniture, a favorite with young and old alike, has drawn very favorable comment from visitors at the Little-Tree Farms and we have sold many. Exceptionally handsome and comfortable, of graceful proportions and substantial construction.

Very useful and decorative for lawn or garden. Originally sold for \$110.00, large quantity production now makes it possible to offer at a lower price. Painted white. 8 feet tall, 5 feet wide, 2 feet deep. \$99.00

Express or freight collect.

Arbor Seat No. 105

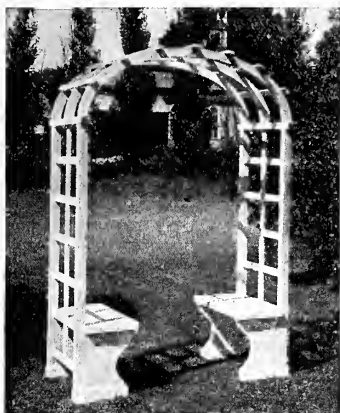

(Illustrated below)

An extremely decorative and useful piece of garden furniture at a low price. Tuck in a corner among the shrubbery, use on the lawn or in the flower garden. Covered with climbing roses or other vines it makes a delightful shady bower. Strong wooden construction, painted white. 2 feet deep, 5 feet wide. \$50.00 each.

Express or freight collect.

No. 106. Same design as above but 30 inches deep. \$56.00

Express collect.

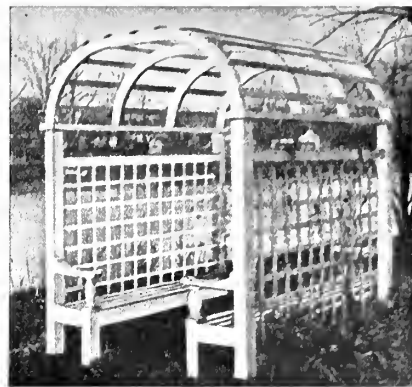

Arbor Seat No. 135

(Illustrated at right)

Covered with vines or climbing roses this arbor makes a delightful retreat for a small back yard as well as for the larger yard of a more pretentious property. The 40-inch space between the seats is ample to admit a tea table.

This piece may be used with lattice fence No. 175, shown below, at the boundary of property or side of garden. It gives an effect similar to that of design No. 5 illustrated below. Rugged wooden construction painted white. \$99.00 each.

Express or freight collect.

Rose Arch with Seat No. 32

(Illustrated at left)

A very comfortable, graceful, substantially built and durable arched support for roses, combined with garden or lawn seat. Can be set almost anywhere but is particularly appealing at the end of a garden path or in an evergreen or shrubbery border.

This arch is equally good for a large or a small property. Wood painted white. Seat 4 feet long, 18 inches wide. Arch and seat with back lattice, as illustrated. \$50.00. Arch and seat without back lattice, \$43.00

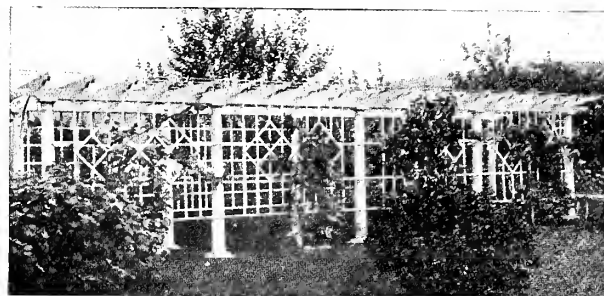

Freight or express collect.

Screens and Fencing

If you want a type of fencing not illustrated here, write us about it. We can supply many other styles.

Check-R-Board Fencing

New, artistic, durable, moderately priced. Write for full description.

Single Column Pergola with Lattice No. 45

(Illustrated above)

Distinctly artistic. Durable made of wood painted white. A delightful support for vines and a charming background for the flower garden. May be used to divide flower and vegetable gardens or to screen out an objectional view.

A sundial on a pedestal or a bird bath in the foreground blends well with the Pergola and adds a pleasing note. (See pages 43 and 47 for bird baths and sundials.)

Pergola complete as illustrated, 30 feet long, 9 feet high, without sundial and pedestal. \$180.00

Middle section only, including gate and pillars. \$76.00

Middle gateway section only, without pillars or pergola top. \$52.00

Freight or express collect.

Rustic Gate: 3 feet wide with straight top. 6 feet 6 inches high. 21.50 each

Dubois Rustic Fencing

These quaint, extremely durable fences (made in France) furnish an artistic and pleasing method of securing privacy. Selected live chestnut saplings, pointed at the top, are staunchly woven together with non-rusting wire. The completed fence requires no painting and weathers quickly to a soft, beautiful brown. The texture of this barrier makes an ideal background for flowers and vines.

Fencing: 4 feet 11 inches high \$1.65 per lineal foot
6 feet 6 inches high 1.95 per lineal foot

Rustic Gate: 3 feet wide with curved top. \$19.50 each
4 feet 11 inches high 21.50 each
6 feet 6 inches high

Freight or express collect.

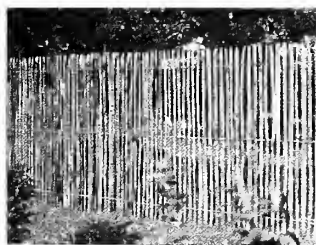

Reeves Cleft Chestnut Fencing

Made from cleft chestnut palings, spaced 3/4 inch apart, bound firmly by three lines of galvanized wire. This construction permits rolling for shipment and easy handling in sections. In erecting this fencing, place cedar posts 8 feet apart and drive in the ground to a depth of 3 feet.

Sold in 16-foot sections:

3 ft. 10 in. high \$.50 per lineal foot
4 ft. 11 in. high .65 per lineal foot
6 ft. 6 in. high .90 per lineal foot

Freight or express collect.

"Little-Tree" Woven Lath Screen

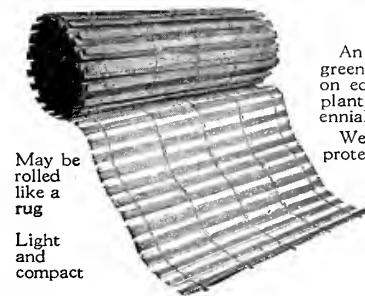

An excellent winter protection for evergreens, trees shrubs and perennials. Stand on edge to hold leaves or straw around plants or lay flat to hold leaves on perennial beds.

We have used these for many years to protect seedlings and small transplant beds.

Perfect summer shade for propagating seed beds and young plants.

"Little-Tree" Woven Lath Screens are made of selected lath woven together with five double strands of heavy galvanized wire.

The space between the lath is equal to the width of the lath in our standard screen. Closer spacing made at special prices. The standard screen provides what is known as "half shade," a most effective combination for protection and ventilation.

May be rolled like a rug

Light and compact

A fifty-foot roll is easily handled by one person. Cut any length desired.

10 to 50 feet \$.25 per lineal foot
50 to 100 feet .20 per lineal foot
3 or 4 foot width at same price.

Double Column Pergola No. 30

(With or without Lattice)

(Illustrated above)

This handsome pergola is most attractive at the end of the garden or dividing lawn and garden. Rugged wooden construction, painted white. The arbor is shown supporting grapes. May be used also for climbing roses and other flowering or foliage vines.

Complete as illustrated, 40 feet long, made of our 10-foot sections, and 8 feet broad with back lattices. \$343.00

Sold also in sections as follows:

Plain pergola without lattice, first 10-foot section. \$93.00
Each additional 10-foot section. 50.00
Lattice for both sides, per section. 25.00

Freight or express collect.

Arbor Seat and Fence No. 5

(Illustrated above)

One of our most popular numbers. Very attractive as well as sturdy and useful. Frequently used to divide lawn and garden. Wood painted white. Arbor is 8 feet wide, 3 1/2 feet deep.

Arbor with seats and double gates, as illustrated. \$100.00
Arbor with seats and back lattice. 95.00
Arbor with seats, without gates or back lattice. 80.00

Fence sections, 8 feet long, factory assembled:

3 1/2 feet high \$1.85 per lineal foot
4 1/2 feet high 2.10 per lineal foot

Fence sections, 8 feet long, knocked down:

3 1/2 feet high \$1.35 per lineal foot
4 1/2 feet high 1.60 per lineal foot

Freight or express collect.

Lattice Fence and Gate No. 175

(Illustrated above)

A tall, well-built, ornamental fence with arched gateway. Makes a strong and decorative division line between properties or screen to fence off chicken or drying yards, kitchen gardens, etc., from the lawns. Fence illustrated has over all length of 30 feet. Each lattice section 7 feet high.

Gateway and gate, including two middle posts \$30.00
Gateway and gate without posts 12.00
Gate only 7.00

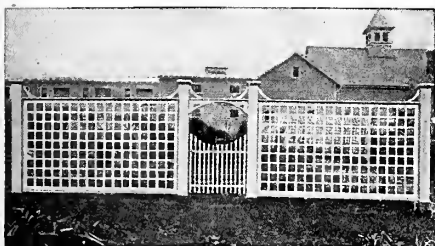

Lattice fencing, knocked down:

6 feet high \$3.00 per lineal foot
7 feet high 3.25 per lineal foot

Lattice fencing, factory assembled:

6 feet high \$3.50 per lineal foot
7 feet high 3.75 per lineal foot

Freight or express collect.

Bird Font No. 650
(Illustrated above)

This charming terra cotta font combines delightful simplicity and perfect symmetry. A beautiful contribution to grounds or gardens. 37 inches high. Top 24 inches wide. Base 15 inches wide. \$38.00. *Express collect.*

Note: Bird Baths are furnished without hole in bowl unless ordered otherwise for connection with running water.

Fountain No. 562
(Illustrated above)

A fountain of generous proportions pleasingly designed in soft-toned, gray terra cotta. Charming in the garden or conservatory. Bowl 37 inches wide, 17 inches high, 21 inch base. \$55.00 (not including figure). *Express or freight collect.*

Flower Holder No. J14
(Illustrated at right)

Strong frost-proof glass flower holder, 10 inches tall, especially adapted for cemetery use. Will hold long sprays of flowers. Sturdy steel frame to stick in ground. \$1.25. Postage \$.25

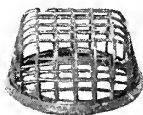

Tulip Bouquet Holder No. J5
For cemetery use. Made of galvanized metal with bronze finish. Vase, not including spike for insertion in ground, is 5 inches high. \$1.00 each. Postage \$.25

Flower Holder No. DZ

Heavy rust-proof metal. Very substantial. Holds all kinds of flowers. Many say this is the best holder they ever saw.

3 inch diameter \$.75
4 inch diameter 1.25
5 inch diameter 1.75
Postage \$.15

Rain King Hose Nozzle

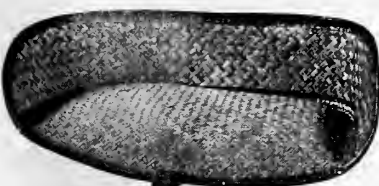

Adjustable for fine or coarse spraying. Made of brass, cannot rust, clog or give trouble, and will last a lifetime. Use this once and you will never use any other. \$1.50 each. Postage \$.15

Fountain Head No. 634
Faun head of stone gray terra cotta for attaching to wall. Water outlet in mouth. 8 inches high. \$8.50. *Express collect.*

Plant Markers No. R. G.

We use them in our gardens. Made of steel with foliage green enamel baked on. Label 5 inches by 1½ inches. Two lengths: 2 feet and 3 feet. \$.35 each. \$.30 each in quantities of 10 to 50. \$.25 in quantities of 50 or more. *Express collect.*

Kneeling Pad No. L. C.

Just right for the garden lover when weeding flower beds, tending to cold frames or transplanting bulbs or annuals. A well-made matting-covered cushion with protective rim on three sides. \$2.00 each. Postage .25 extra.

Kneeling Pad No. F10
(Not illustrated)

Flat red rubber pad. 8 inches by 16 inches by ¾ inch thick. \$1.50 each. Postage \$.25

Ring Lawn Sprinkler

Very popular and practical, as it requires no adjustment. Throws fine mist covering a large area. Made of best quality sheet brass, and is therefore rustproof. Every home owner needs one or more of these useful and moderately priced sprinklers. 8 inch diameter, 1½ inch high. Price \$1.00 Postage \$.15

GARDEN BOOKS

Around the Year in the Garden
By F. F. Rockwell

A chronologically arranged guide with directions and suggestions for each month in the year. Practical gardening suggestions for growing vegetables, fruits and flowers outdoors, indoors and under glass. Price \$2.50 Postage \$.15

The Book of Bulbs
By F. F. Rockwell

A very complete book on bulbs for all seasons, interesting alike to amateur and professional growers. Price \$3.00 Postage \$.15

The Cultivated Evergreen
By L. H. Bailey

In this book are complete descriptions of various evergreens, with general information on their use, best soils and locations, planting, pruning, cultivation and treatment for disease and insect pests. One section is devoted to conifers and another to broad-leaved evergreens. Special, new, moderately priced edition. \$3.00. Postage \$.15

The Design of Small Properties
By M. E. Bottomley

A landscape guide for the owner of a moderate sized home in town or country. Charmingly written and profusely illustrated with more than 60 plans. Classified descriptive lists of trees, shrubs, vines and flowers. A very practical and illuminating introduction to the art of Home Landscaping—invaluable to the amateur. Price \$3.00. Postage \$.15

Evergreens
By F. F. Rockwell

Detailed information for the amateur on how to grow and use evergreens. Various types of plants and planting are illustrated and described and there are many suggestions for home decoration. Price \$1.00. Postage \$.10

Garden Guide
The Amateur Gardener's Handbook

The most complete manual for the amateur ever published. Answers clearly hundreds of garden questions. Price \$1.50 Postage \$.15

A Little Book of Annuals
By A. C. Hottes

Growing annuals is one of the most absorbing gardening pursuits. Here is an up-to-the-minute guide. A practical, comprehensive and authoritative book for the amateur. Price \$1.50 Postage \$.15

A Little Book of Perennials
By A. C. Hottes

This book on Perennials with its companion on Annuals by the same well-known authority makes a very complete and enjoyable gift to any lover of flowers who does not already possess them. Reliable and concise, simple and practical information on propagating, growing, selecting and using perennials. Also lists for different locations and purposes. Price \$1.50 Postage \$.15

The Practical Flower Garden
By Helena Rutherford Ely

An explanation of the principles underlying gardening by an amateur gardener who tells of her own experiences. Price \$2.00 Postage \$.10

Manual of Gardening
By L. H. Bailey

A complete and practical treatise, giving information on how to secure best landscaping effects; the propagation and culture of fruits, vegetables and ornamental plants and how to protect them from insects and disease. Price \$3.00 Postage \$.15

Practical Landscape Gardening
By R. C. Gridland

Written for the owner of the moderate-sized home. Takes up in a simple way all the elements that enter into the beautifying of properties. Many illustrations and photographs. Its many pictures explain practically every landscape problem confronting the home builder and owner. Price \$2.50 Postage \$.15

Practical Plant Propagation
By Alfred C. Hottes

An exposition of the art and science of increasing plants as practiced by the nurseryman, florist and gardener. Appeals to everyone who has to do with seeds and plants, whether amateur or professional. Profusely illustrated. Price, cloth bound, \$2.00 Postage \$.15

Rock Gardens
By F. F. Rockwell

Information on planting, constructing, and maintaining rock gardens on the small place. Classified lists of plants. Profuse illustrations. Price \$1.00 Postage \$.10

The Rose in America
By J. Horace McFarland

A complete manual for the amateur rose grower, which tells in non-technical language how to grow roses anywhere in America. Twenty full page plates in color and sepia. Price \$3.00 Postage \$.15

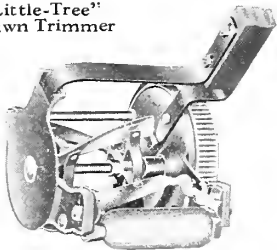

Shrubs
By F. F. Rockwell

A working handbook for the amateur containing brief information on how to plan shrubbery plantings; how to use shrubs for flowers, foliage, fruits and bark; how to plant, propagate, mulch, and care for them for best results. Invaluable to the home owner. Classified lists of varieties for different purposes, climates and soils. Price \$1.00 Postage \$.10

1001 Garden Questions Answered
By Prof. Alfred C. Hottes

Answers practical questions on flowers, trees, shrubs, lawns, etc. 320 copiously illustrated pages giving a wealth of valuable garden facts. Price \$2.00 Postage \$.15

"Little-Tree"
Lawn Trimmer

"Little-Tree" Lawn Trimmer

Self-adjusting ball bearings. Crucible steel stationary knife. This Trimmer cuts every blade of grass left by the lawn mower close to buildings, fences or shrubbery. It follows the lawn mower just as indispensably as the dust cloth does the vacuum cleaner. Four Crucible Steel Drawcut Wiper blades, self-sharpening. Will soon pay for itself in saving of labor. Price \$12.00. *Express collect.*

Flower Scissors No. 575

Imported, full nickel plated, and finely made of stainless steel. Note how it holds the flower as well as cuts it. 6 3/4 inches long. Price \$2.25. Postpaid \$2.35.

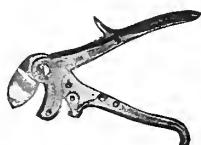

Ladies' Rose Shears No. 14

Beautifully and substantially made of forged steel. Nickel plated and fully polished. Volute spring and end fastening clip. 6 inches long—just right for lady's hand. Price \$1.50 each. Postpaid \$1.65.

California Pattern Pruning Shears No. 50

Black finish with polished blades. A very practical and sturdy tool. Excellent for pruning shrubs, evergreens and small trees. 9 inches long. Very moderately priced at \$1.00 each. Postpaid \$1.15.

"Parrot Head" Pruning Shears No. 15

Permits a "straight from the shoulder" cut. Blades at right angles to handles. A handy, convenient tool, easily carried in the pocket. 6 inches long. Price \$1.75. Postpaid \$1.90.

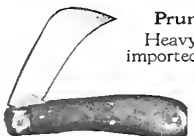

Swiss Pattern Pruning Shears No. 85

Convex ground, steel blades riveted to full polished, malleable iron handles. Brass springs and ratchet regulating nut. Removable end clip. 8 1/2 inches long. Price \$2.50 each. Postpaid \$2.65.

"Little-Tree" Grass Shears No. A 355

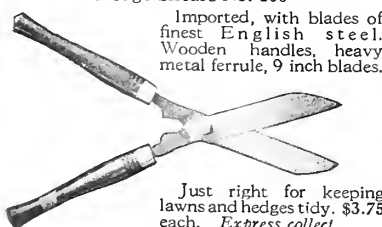

Strongly made with spring steel handle and highly polished. A very popular and serviceable tool. 5 1/2 inch blades. Price \$1.00. Postpaid, \$1.15.

Pruning Knife No. 3 C

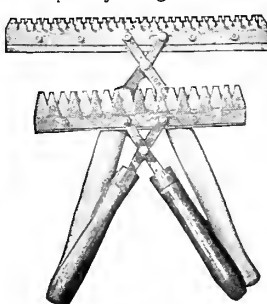

Heavy glazed blade of finest imported steel. Cocoa handle iron lined. A very practical tool of unusual strength. Price \$2.00. Postpaid \$2.10.

Hedge Shears No. 100

Imported, with blades of finest English steel. Wooden handles, heavy metal ferrule, 9 inch blades. Just right for keeping lawns and hedges tidy. \$3.75 each. *Express collect.*

Simplicity Hedge Pruner and Trimmer

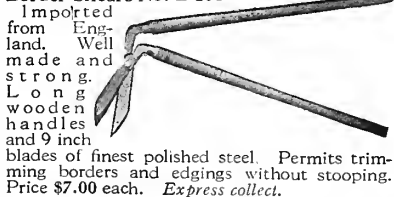

Use these tools for keeping the hedge trimmed and for pruning out old wood. 14 in. blades. Price \$6.00. Postage .25

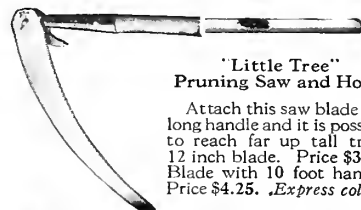

Simplicity Hedge Trimmer

Made of finest high-grade carbon steel. 10 inch blades. Price \$4.00. Postage .25

Border Shears No. E 104

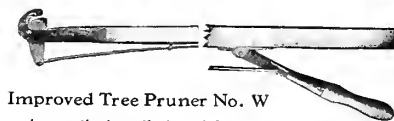

Imported from England. Well made and strong. Long wooden handles and 9 inch blades of finest polished steel. Permits trimming borders and edgings without stooping. Price \$7.00 each. *Express collect.*

"Little Tree" Pruning Saw and Hook

Attach this saw blade to a long handle and it is possible to reach far up tall trees. 12 inch blade. Price \$3.25. Blade with 10 foot handle. Price \$4.25. *Express collect.*

Improved Tree Pruner No. W

An easily handled tool for thinning out high branches. Worked by a lever attached to a strong wooden handle 10 feet long. Price \$4.25.

Double Edged Pruning Saw No. W

Made of the very finest steel 20 inch long. Narrow, curved blade cuts easily between close branches. Price \$3.75. *Express collect.*

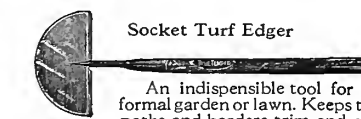

Spring Tooth Magic Weeder and Hoe

Teeth are of finest quality spring steel and handles are of selected hard wood. Style D, weeder and hoe, 6 inch handle. Illustrated. Style F, weeder only, 42 inch handle. \$1.50. Style B, weeder only, 36 inch handle. .45. Postage \$1.15 each.

Asparagus Knife

Every owner of an asparagus bed needs one of these convenient tools. Also a dandelion weeder. Price \$1.50 each. Postage \$1.15.

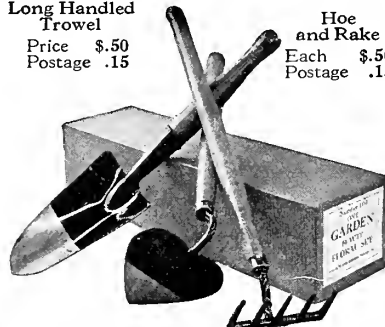

Socket Turf Edger

An indispensable tool for the formal garden or lawn. Keeps turf, paths and borders trim and neat. 4 1/2 foot wooden handle. Strong, flat top blade. Price \$1.35. *Express collect.*

Long Handled Trowel

Price \$.50
Postage .15

Hoe and Rake
Each \$.50
Postage .15

Floral Set No. 100

Three of the handiest little tools ever designed for those who putter round a small garden. Strongly made of steel, with wooden handles. Three tools. \$1.25 per set. Postage \$.25

"Little-Tree" Garden Shovel No. L

An exceptionally light weight, small shovel, very strong and well made; straight wooden handle 4 feet long lessens stooping. Rounded point for easy digging. Easily handled. A great favorite with the ladies. Price \$1.50. *Express collect.*

Feeny Dusting Gun

Very useful for spraying dry powders. Best quality material and workmanship. Price \$1.25 each. Postage \$1.15

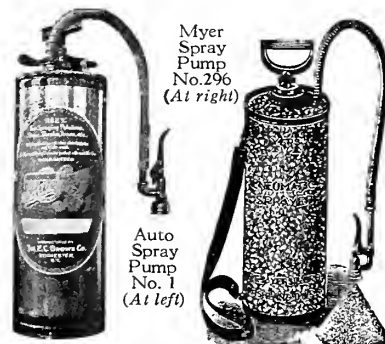

Little Midget Sprayer No. B 28A

Small, powerful atomizer for general household or out-of-door use. All tin. Holds 1/2 pint. Price \$.40. Postage \$1.15

Auto Spray No. 26C

For spraying any kind of insecticide in liquid form. Made of brass which does not rust. Price \$2.25. Postage \$.25

Myer Spray Pump No. 296 (At right)

Auto Spray Pump No. 1 (At left)

Auto Spray Pump No. 1

A sprayer for trees, vines and vegetables which works automatically for 6 to 15 minutes. Easily charged and operated. Galvanized \$6.75. Brass \$9.75. *Express collect.*

Myer Spray Pump No. 296

Pneumatic sprayer of heavy galvanized iron with long distance nozzle. Price \$7.25. *Express collect.*

"Little-Tree"
Special Lawn Mower

"Little-Tree" Special Lawn Mower

The "Little-Tree" Special is, we believe, the very best lawn mower on the market at any price. This mower has a strong rigid knife bar and a sturdy five-blade cylinder mounted on Timken Tapered Roller Bearings, which practically eliminate friction, maintain absolute alignment, and promote easy operation. Parts are interchangeable, adjustment is easy, and dust-proof oil cups are provided.

16 inch blades \$24.00
18 inch blades 26.00
20 inch blades 27.50

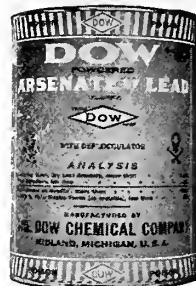

Express collect.

INSECTICIDES AND FUNGICIDES

Antrol

Ants cause great damage in many gardens by protecting the young of aphids, mealy bug and scale insects. Antrol exterminates ants at the source as it destroys the entire colony. Mildly poisonous but harmless to children or pets.

Antrol Cottage Set (9 jars with 6 oz. bottle of syrup and instructions for use) \$1.90. *Express collect.*

Arsenate of Lead

One of the best known remedies for controlling leaf-eating and chewing insects on shade, forest or fruit trees and grape vines. Will keep forever. Does not freeze and spoil.

Powder form.
1 lb. \$.45
3 lbs. 1.25
Express collect.

Black Leaf "40"

An excellent remedy for spraying sucking insects, spiders, aphids, etc., on evergreens, shade and fruit trees, vegetables, shrubs and flowers. Also for Red Apple Bug, Green Apple Bug and Cherry Slug. Price \$1.25. Postage \$.05

1 oz. \$.35
1/2 lb. 1.25

Bordeaux Mixture (Powder)

The standard preventive for blight, mildew, rust and other fungous diseases. Dilute in water. \$.35 per lb. *Express collect.*

Fungitrogen

A highly concentrated fungicide for quick control of mildew, black spot, rust and other fungous diseases. Especially recommended for roses and delphiniums.

1/2 pint \$.75 1 pint \$1.25 1 quart \$2.00
Express collect.

Sunoco Oil Spray

Especially recommended for evergreens bothered with scale, aphids and similar pests. A sticky, self-emulsifying spray oil and a good spreader and sticker for Bordeaux Mixture, Arsenate of Lead and Black Leaf "40."

1 quart \$.75. *Express collect.*

Pyrax

Controls leaf eating and chewing insects and also protects trees, shrubs, vegetables and other plants from fungous diseases. In powdered form to which water is added. Economical and easy to use. 1 lb. \$.55 5 lbs. \$2.00
Express collect.

Volck

A powerful insecticide, for controlling Red Spider, Aphids or Scale. Odorless, colorless, non-poisonous. Will not harm tender foliage. Directions on can.

1/2 pint \$.50
1 quart 1.00
Express collect.

Wilson's O. K. Plant Spray

One of the best insecticides for roses, hardy perennials, evergreens, shrubs, and vegetables. It kills all insects and bugs, yet is harmless to plant life. Ideal for small homes. One part is mixed with from 10 to 20 parts of water.

1/2 pint \$.40 1 quart \$1.00 1 gallon \$3.00
Express collect.

MAKE ALL CHECKS AND MONEY ORDERS PAYABLE TO **LITTLE-TREE FARMS**

All orders are subject to loss of stock by drought, floods, fire or other unavoidable causes.

Be sure to read "When Ordering Please Remember" on next page.

(OVER)

When Ordering Please Remember

Little-Tree Farms General Offices are at the retail nursery, Little-Tree Farms No. 2, on Pleasant Street, Framingham Centre, Mass., twenty-two miles west of Boston, and twenty miles east of Worcester, on a state road from Boston to Worcester and on the Boston and Worcester electric. Framingham Centre is two miles north of Framingham, which is on the Boston and Albany and New York, New Haven and Hartford Railroads.

Please order early for prompt shipment. This is also important for successful planting.

Shipping instructions should be written very plainly.

The more times a plant has been transplanted, root pruned, and longer cultivated in the nursery, the more vigorous and rapid growing it becomes, and the better adapted to difficult conditions. The more difficult the condition, or the quicker the result desired, the better is the grade you will need.

Deliveries. Express shipments normally arrive promptly and in good condition. For carload quantities and heavy shipments, however, *Freight Shipment is best*, unless the distance permits shipment by *Motor Truck*, which is most strongly recommended. We ship by motor truck 150 miles, occasionally further. Prices for truck delivery given upon application.

We deliver free to transportation companies and our responsibility ceases upon such delivery. Shipments travel at customer's risk. We do not pay transportation charges.

Packing. There is no extra charge for packing retail orders, except when specifically noted. In comparing prices with other growers, please note this, as a considerable amount is thus saved our customers.

Nursery Stock marked "B&B" is shipped with roots in a ball of earth securely tied in a burlap, at no additional charge.

Lower Rates on Quantity Orders. We sell 500 or more trees of the same size and kind at the thousand rate; between 50 and 500 at the hundred rate; less than 50 at the ten rate; less than 5 at "each" rate.

Our Terms are Cash with Order. Post Office and Express Money Orders should be made on Framingham. Send cash in registered mail only. Charge accounts can be opened only if satisfactory references are furnished. C. O. D. orders must be accompanied by one-half cash.

Inspection Certificates of the United States Department of Agriculture and the State of Massachusetts Agricultural Department accompany each shipment and assure healthy, clean stock.

Shipping Seasons. Our improved methods allow safe shipping practically the year round, midwinter's cold marking the only pause. Especially for customers within easy trucking distance there need be no hesitation in ordering at any time save deep winter.

The usual nursery shipping seasons are:
In Fall. About the middle of August for Evergreens, continuing through November. The first of October for Hardwoods and Shrubs, continuing until the ground freezes. Evergreens for pots, tubs, etc., are shipped until Christmas.

In Spring. As soon as the frost leaves the ground (usually about the middle of March), continuing until June, for Evergreens, Deciduous Trees and Shrubs, Vines. Roses and Gladioli bulbs, etc., shipped March until May.

Planting time is determined not by the state of vegetation where the planting is to be done, but by the condition of the stock to be planted. So long as the plants are dormant or in movable condition they may safely be transplanted. We can ship to southern localities much later than would be sup-

posed, because vegetation in Massachusetts is dormant much later.

Little-Tree Farms STOCK IS

Dug fresh upon Order: No stock kept in storage cellars.

Graded carefully and generously, usually giving extra for good measure. To avoid confusion, please order sizes as given in the Catalog.

Packed properly in the moist air of modern packing cellars, according to species, time of year, and distance to travel.

Delivered promptly to transportation companies.

All Shipments are marked "RUSH" that you may receive your order as quickly as possible.

Little-Tree Farms Warranty.

We warrant our stock true to label, properly packed, and in all respects fully up to Little-Tree Farms high standard of quality. We guarantee that, should the wrong species, grade or quantity be shipped through error, corrections will be made upon proof and notification within ten days from receipt of goods. We assume no liability for damage beyond the amount of the purchase price. It is humanly impossible to guarantee the growth or life of trees, shrubs or plants, since causes beyond our control may injure or kill them.

We make no Warranty or Guarantee as to Replacements.

In cases where, for the accommodation of the customer, we furnish labor or services in laying out grounds or in planting stock, we make every endeavor to furnish experienced, competent men. We make no further guarantee or warranty in this respect. None of our salesmen or other agents are authorized, in any manner, to waive or alter the above conditions.

Orders are accepted only on the above basis. Claims for delay or injury in transit should be taken up immediately with the transportation company. Write us at once for advice so that we may help you secure settlement.

Visit Little-Tree Farms - - You Are Always Welcome

(See Road Map Below)

THERE is always something of interest to see at our Show Grounds and Office Building on Pleasant Street. In fair weather interested groups are studying the demonstration plantings at all hours of the day, selecting from them, with the help of our

landscape men, materials and arrangements for their own grounds. In inclement weather, the big white and green Home Office offers its hospitality. Photographs and colored plates of plants and plantings substitute for the demonstration grounds. A big glass sales-

room full of potted plants and garden tools and accessories makes your decisions easier. Your car is safe in our ample parking spaces. You are always welcome.

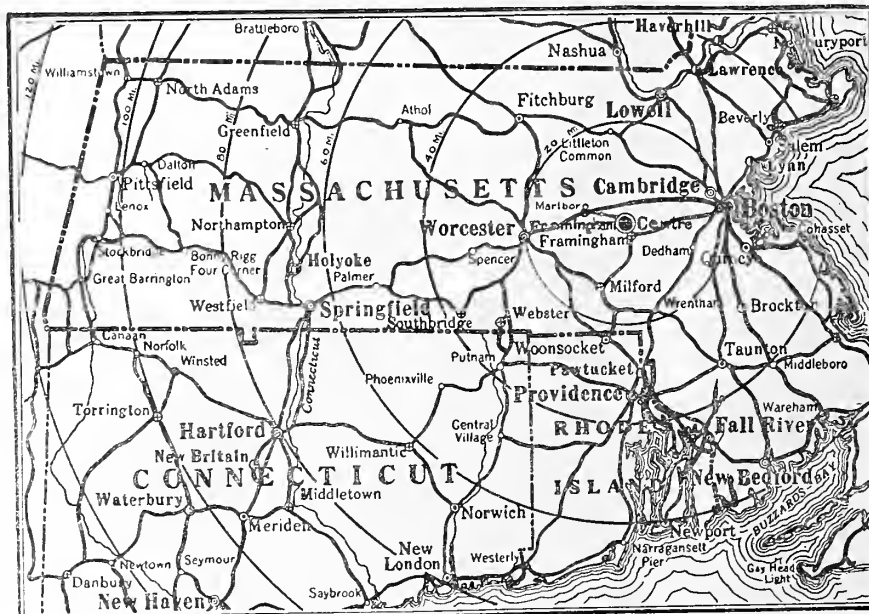

Follow "Little-Tree" signs to reach the nursery on Pleasant Street, Framingham Centre.

To Reach Little-Tree Farms

By Motor. Those visiting Little-Tree Farms by motor, use main highways as indicated on the map given at the right. *Finest State Roads in all directions.*

By Electrics. At Park Square, Boston, take car marked "Worcester," leave car at Framingham Centre. A short walk out Pleasant St. brings you to Little-Tree Farms.

By Train. Leave the train at Framingham Station and take motor bus to Framingham Centre — or taxi from Framingham to nursery.

At Little-Tree Farms

You will find in our New Glass Exhibition Sales House all the worth while Evergreens, Shrubs, Trees, Roses, Iris, Peonies, Gladioli, and Perennials suitable for this latitude, as well as Tools, Fertilizers, Flower Seeds, and Garden Furnishings of the better sort.

Also a pleasant landscape office where you may discuss your needs with a competent landscape engineer. Here you will find every equipment for the convenience of our customers.

How to Plant

Read carefully and save money, effort and time. If you carry out these instructions your plants should grow and be a source of lasting pleasure.

Planting is a very simple operation, but the way you carry out the fundamentals means success or failure. Remember that all plants are living organisms. They need air, food and water. They receive their food and strength from the ground through their roots—the most delicate part of the plants. Be sure the roots are not damaged, or your plant is as good as dead before you start. Drying out of the roots is the thing to avoid. Little-Tree Farms digs a ball of earth with its larger evergreens to prevent drying out. The roots on smaller plants are much easier to protect, so are dug bare and shipped safely with their roots carefully covered with damp moss or other suitable material.

Little-Tree Farms stock is properly packed for shipment by the most approved methods gained by many years of experience. Stock leaves us freshly dug and properly packed. Your plants should reach you in excellent condition.

After you have received good nursery stock there are three very important things that must be done to make your planting a success:

1. Proper soil preparation.
2. Correct placing of plants in the soil.
3. After care: Pruning, mulching, fertilizing, watering, etc.

These three points will be discussed for various types of plants in the instructions below.

EVERGREENS

Soil Preparation. Evergreens as a whole prefer a sandy loam rich in humus (decayed vegetable matter) and porous enough to permit good drainage. Clay or heavy soils should be lightened by mixing in Peat Moss or sand and well-rotted manure containing a good deal of straw. Extremely sandy soils may be improved by adding some Peat Moss, clay or heavy loam and well-rotted manure. Wherever it is possible, prepare the soil, but if this can't be done, select the plant that will grow best under your conditions.

If the plants are to be arranged in groups, as they often are around the foundation of a house, and the soil is fairly good, it is well to prepare the entire area to be planted. This is done by digging to a depth of 18 inches or more and thoroughly turning over the soil, removing roots, stones, and other objectionable matter. Very frequently we find that contractors use rubbish of all kinds for filling around the foundations of new houses. This rubbish, and especially plaster, is harmful to the plants and *must* be removed. If a soil is poor it is a wise investment to remove it and have good soil bailed in. Your plants will then have not only a much better chance to live, but will have food for years to come. A healthy plant is a joy, but a sickly plant is worse than none.

If it is difficult for you to get well-rotted stable manure, sheep manure and Peat Moss, which we can supply at reasonable prices, are good substitutes. Use about one-half pound of sheep manure for each square foot, and dig in plenty of Peat Moss. *Never* use fresh manure, lime or chemical fertilizer.

Little-Tree Farms quality Evergreens are usually shipped "B & B" (roots in ball of burlap-tied earth).

Watering the roots, Figure 1

Unpack Promptly upon arrival. If balls of earth appear somewhat dry, stand the plants close together and water until balls have become thoroughly wet (figure 1). If planting cannot be done within a few hours, dig a trench, in which place the ball of earth *with burlap* and cover over with several inches of soil to exclude the air (figure 2). Soak the trench thoroughly afterward. Plants can be held a week or more this way *if placed where it is cool and away from sun and drying winds*. If the plants are bare rooted, dip the roots in a thick paste of mud and water and plant temporarily (called heeling-in) by placing them closely together at an angle, their roots in a trench, and cover these with soil to exclude the air. Water thoroughly.

To Plant "B & B" Evergreens, dig a hole 2 or 3 times the size of the ball of earth. Refill the hole with good loam until it is just large enough to take the ball. Place the burlapped ball in the hole, cut the strings and carefully remove the burlap preserving the ball. Shovel in some good loam and pack firmly around the ball with a tamper, or your foot.

Covering roots with soil, Figure 2

Do this several times, until the hole is two-thirds full. Then fill the hole with water, allowing it to settle. Refill several times. Now fill the hole with soil, leaving it saucer-shaped so that the water will collect around the plant and not run away. Plant about one inch deeper than when in nursery, as shown by earth mark on the stem.

If evergreens are large and there is danger that they may move in the wind, they should be braced with guy wires or supported by driving in a stout stake along the side of the stem, and tying the two together, using old hose or leather straps under each string to prevent chafing.

Bare Rooted Plants are planted the same as above, except that the roots are to be spread out and downwards as much as possible.

After Care. *Water the ground thoroughly so that the water reaches the bottom roots. Merely sprinkling the foliage or soil is worse than no water at all.* Thorough watering twice a week is usually sufficient, but this depends on weather and other conditions. After watering, stir the soil to a depth of one inch, as this preserves the moisture.

In late fall it is well to cover the ground around the plants with a mulch of two or three inches of well-rotted stable manure or Peat Moss or, if these are not available, leaves or straw. Sheep manure as a fertilizer may be used at the rate of one pound for each five square feet. The manure should be allowed to remain over the winter, and worked into the soil in the spring.

Where it is desired to keep plants small it is necessary to "root prune." This is done by pushing a spade the entire depth of the blade into the soil in a circle around the plant. The size of this circle should be determined by the spread of the branches. The foliage of the finer foliaged plants should be sheared and the coarser foliaged plants, such as Pines and Spruces, pruned with a knife. This root pruning with the shearing makes it possible to keep plants low and compact for a long time. The best time to shear or prune is in June, but it may be done at any time.

POTTED EVERGREENS

Evergreens in pots, tubs, vases and window boxes are used extensively in vestibules, at the doorstep, in the garden, along the porch railing, under windows; in brief, wherever special decorations are wanted either inside or outside the house. In caring for them it must be remembered that it is essential that they have proper food, light, air, exposure and moisture. Plant in well-drained containers, as large as possible, using rich garden loam. Give them plenty of sunlight and clean fresh air, but avoid overheated rooms or exposure to drying winds. They should at all times have plenty of moisture, though excessive moisture, which causes "waterlogging" of the roots, is just as harmful as excessive dryness.

When Potted Evergreens are used for winter decoration, certain precautions must be taken to enable the plants to come through the trying winter weather in the best condition possible. Too much stress cannot be laid on the fact that the plants must enter the winter with as much moisture as the roots can hold, though water must not be allowed to collect and freeze in terra cotta or artificial stone vases or pots, as this may crack the container. The simplest way to guard against this freezing and cracking is to fill the container entirely full with earth late in the season so that rain water cannot collect. In the spring the superfluous earth should be removed so that the plant may be watered properly. So far as possible keep the evergreens in sheltered places where they do not get the reflected mid-day heat from brick, cement or stone and where they are away from the windswept corner of the building. This is particularly necessary in late February, March and April before the soil in the container thaws out.

PEONIES

Freezing does *not* harm the roots of evergreens, but great damage is done when the warm sunshine and drying winds of early spring cause too rapid evaporation of moisture from the leaves before the roots have a chance to thaw out and provide a fresh supply.

When Potted Evergreens are used for summer decoration they should, if possible, be removed from the container not later than October and planted in the ground. Here again care should be taken that the plants enter the winter with sufficient moisture in the roots and, in addition, a mulching of leaves, straw or peat moss (see page 42 of Catalog for Granulated Peat Moss) should be placed on the ground around the plant. In the Spring the plants may again be lifted and planted with fresh soil in their containers.

Like potted plants from the Florist, Potted Evergreens should be considered as more or less temporary decorations. Even under the best conditions they are often not as thrifty as when planted in the ground, but if the right care and attention are given they are extremely decorative and a source of pleasure for many seasons.

SHADE AND FLOWERING TREES AND SHRUBS

Soil Preparation. Same as for Evergreens.

Unpack promptly, and if not possible to plant immediately, "heel-in" by placing the trees closely together, roots in a trench, and covering over the roots to exclude the air. This "heeling-in" should be done in a cool place out of sun and drying winds. Water thoroughly.

Planting. Dig a hole 2 or 3 times the size of the spread of the roots and refill with several inches of loose soil, making a cone-shaped mound, so that when the tree or shrub is put on top of it, the roots will have a tendency to run down the side. Then cover the roots with several inches of soil, packing firmly with a tamper, or foot. Fill hole two-thirds full. Fill hole several times with water, letting it settle each time. Now fill the remaining cavity with soil so that the hole is somewhat saucer shaped; water will have the tendency to collect around the plant and not run away.

If trees are large and are likely to move in wind, they should be braced with guy wires or supported by driving in a stout stake along side of the stem, and the two tied with old hose or leather strap to prevent chafing. The tops of deciduous trees and shrubs should be pruned after planting. This means cutting out interfering branches and about one-third of the previous year's growth. Plant about one inch deeper than when in nursery.

FOREST PLANTING

In planting large quantities of young trees, it is impractical to prepare the soil or to water them afterwards. One must depend on planting in moist soils at a suitable season and on the vigor of the plant and suitability of conditions. Little Tree Farms plants have great vitality and splendid roots and such are most sure to take care of themselves after proper planting.

ROSES

Soil Preparation for roses is a very important and necessary factor in their success. Prepare the bed by digging to a depth of 2 feet or more. If the soil is good, just work

into it about one-third its bulk of well-rotted manure (cow manure is preferred, though horse manure is nearly as good). Have soil and manure thoroughly mixed. Roses prefer a moderately heavy soil, though a light one will suffice if properly enriched each spring.

Roses require much moisture but will not stand "wet feet," or standing water. If water does not drain through the soil readily, some means of drainage is necessary.

Unpack Promptly. Upon arrival take the rose plants out of the boxes and "heel-in," placing the plants closely together in a slanting position in a trench and cover over roots well with soil to exclude air. Water thoroughly. Take out but a few plants at a time.

When planting, be sure the roots do not become dry. Be sure that the roots are well spread out and the soil is firmly packed around each plant to exclude the air.

All grafted roses should be planted low enough so that the joint between the root stock and top is three inches below the soil surface. *This is very important.* Water thoroughly.

Plant Hybrid Perpetuals, 2½ to 3 feet apart; Hybrid Teas, 1½ to 2 feet apart; Ramblers, 5 to 6 feet; Rugosa Roses for hedge, 1½ feet; Wild Roses, 2 feet apart.

After Care. During the growing season keep a good mulch by stirring the top soil to a depth of an inch or so, and in dry weather water so that the bottom roots are reached.

If plants become infected with lice or aphids, spray with *Black Leaf Forty*. See page 48 Catalog and Year Book. Instructions for use come with each package.

Protect Hybrid Perpetuals and Hybrid Teas during the winter by heaping up soil around them so 4 to 5 buds on each of the stems are buried.

Tops should be pruned back so that only 3 to 4 strong branches remain and only 4 to 6 buds on each branch.

PERENNIALS

Soil Preparation. Select a rich somewhat moist soil, in good light. Prepare the bed by digging to a depth of 18 inches, working in a liberal quantity of well-rotted manure and coarse bone meal. Arrange the plants according to their heights and color combinations. Plant enough kinds to provide continuous bloom from spring to fall. Avoid too striking color contrasts. Do not, as a rule, set plants singly, but rather three to five or more of a kind together. A much richer effect is gained this way and a longer season of bloom.

Planting. The average distance between plants is usually about a foot. The plants which grow three feet or more are put farther apart and the very low growing plants closer together. Spring and fall are good planting seasons. April and May, September and October are the best months.

After Care. Keep plants well mulched and watered during the summer. In the winter it is well to cover the beds with about two inches of coarse straw. This is put on after the ground has frozen and prevents the alternate freezing and thawing which is detrimental to the plants. Fertilize the beds each spring by working well-rotted manure or sheep manure and bone meal into the surface soil.

Soil Preparation. To secure the best and biggest blooms from your Peonies the soil should be well prepared in advance of planting. Any good soil will do if the bed is well drained and dug to a depth of 18 inches and five or six inches of well-rotted cow manure put on the bottom. This manure should be covered with four inches of soil to prevent direct contact of the manure and roots. Mix about 10 per cent of well-rotted manure or leaf mould with the rest of the soil and plant the Peonies.

Planting. Peonies are best planted in early spring or during September and October.

Plant the "roots" about three inches under the surface and 2 to 3 feet apart. This gives them room to develop. Peonies are extremely hardy and need no protection after the first winter.

After Care. When the ground becomes workable in the spring dig the soil around the plants to a depth of an inch or two and work in some well-rotted manure or bone meal, taking care to keep the fertilizer away from the crown. Peonies like a lot of moisture and after the buds have formed an application of liquid manure once a week will produce larger and more brilliant blossoms. To get large flowers pick off the lateral buds and thus throw the strength into the top buds.

GLADIOLI

Soil Preparation. "Glads," like most plants, respond best to a good loam soil with plenty of nourishment. You will be amply repaid in blossoms if you feed your plants.

Planting. Plant bulbs four inches deep in heavy soil and five to six inches deep in lighter soils. Thoroughly pulverize the soil, working in well-rotted stable manure. A little fertilizer or bone meal is also helpful.

To secure a succession of bloom plant a new lot of bulbs every ten days from the middle of April till the end of June.

After Care. In fall when stems have turned brown dig and store away in a cool place for six weeks. At this time tops should be cut off and the bulbs stored in a cool place, away from frost and drying heat, until spring.

ANNUALS

Soil Preparation. It is desirable that beds be renewed each fall by spading to a depth of 18 inches and working in well-rotted barnyard manure. In the spring prepare the soil by working in a half pound of sheep manure to each square foot and bone meal at the rate of 1 pound to 20 square feet.

Planting. Plant annual seeds after danger of frost has passed. Sow fine seeds on top of soil. Larger seeds should be covered to a depth equal to the thickness of the seed. Sweet Peas are planted about 2 inches deep and Zinnias about ½ inch deep. Press earth down firmly with a board or the palm of the hand. Sprinkle beds thoroughly with a fine spray.

To secure early flowers, seeds may be planted indoors in shallow boxes and transplanted to the garden after the danger of frost has passed.

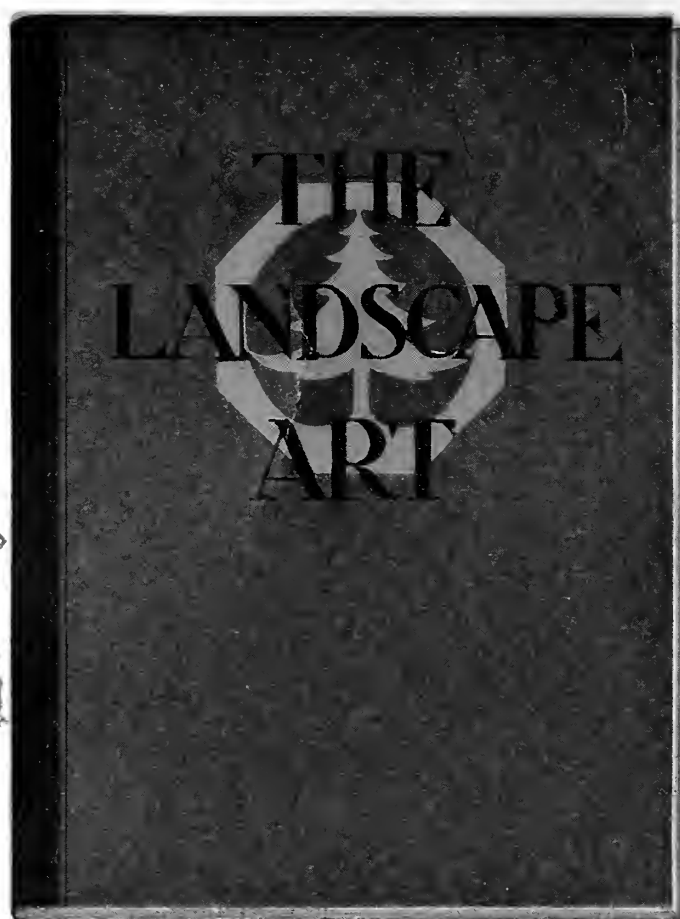

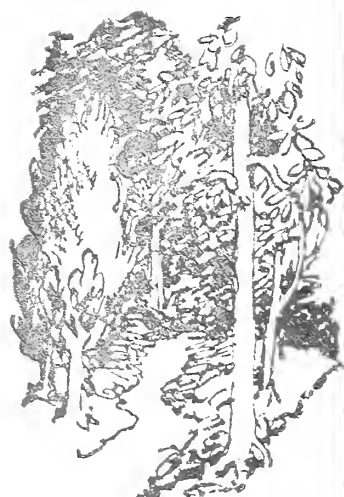

After Care. When plants are 2 to 3 inches high, thin out to provide growing space for those that remain.

THE LANDSCAPE ART

Is a new book just published by the Little-Tree Landscaping and Forestry Service.

To meet the increasing interest in the art of landscaping and the desire for a more vital understanding of both its principles and its possibilities, the first part of this book is devoted to a brief survey of the fundamentals governing the art, especially in their application to modern American problems.

Designed for laymen, it is written in non-technical language and freely illustrated with many fine photographs.

This portion of the book also introduces *Little-Tree Landscaping and Forestry Service* which is described in detail in the rest of the book.

This is a complete service, through which all phases—from Plans to Construction, Plants and Planting—are supplied by a single organization, thus saving time, eliminating divided responsibility

and requiring but one estimate, one overhead cost, one profit instead of many.

Little-Tree Service is, therefore, a highly flexible, economical and efficient method of handling your problem, whether small or large, and appeals especially to

- Those planning or building New Homes.
- Those desiring to remodel or improve their Home Grounds.
- Architects, Builders and Development Companies.
- City Planning Boards, Park Commissioners, Garden Clubs, Societies for Civic Betterment.
- Those owning, developing or maintaining Woodlands—for pleasure or for profit.

If you belong to any of the above classes, write us and this valuable book will be sent you without charge.

LITTLE-TREE LANDSCAPING & FORESTRY SERVICE

Little-Tree Farms, Framingham Centre, Massachusetts
